# Restructured & Revised Syllabus under Credit based Semester and Grading System

for

Master of Management Studies (MMS) Semester I & II

2 Years full-time Masters Degree Course in Management

(Effective from the academic year 2016 – 2017)

#### Title

Name of the Programme: - MASTER OF MANAGEMENT STUDIES (MMS) Nature of the Programme: - MMS (Master of Management Studies) is a 2 year Full time Master's Degree course of University of Mumbai.

#### **Eligibility Criteria**

as per the directives of Directorate of Technical Education, Government of Maharashtra

#### Preamble

We see a kind of Education inflation in India. This means that a particular qualification which served a purpose at one time or is supposed to fulfill is no longer perceived to be enough in today's times. It requires an additional degree or certification to become truly employable. Hence, it becomes important to bring relevance and constant innovation in curriculum, pedagogy, emphasis on 'learning by doing' so as to make students future ready and employable. MMS kind of programmes have to take into account this reality. It needs to metamorphose into an Application oriented programme.

Secondly, let us refer to a section of young people and particularly those who have reached at the higher education level. They have access to much more information than their previous generations. Free content through the internet, open source knowledge, new media platforms has led to higher level of exposure for the youth. Hence the MMS classroom can no longer be a place just for knowledge dissemination. It needs to help the youth to go into the depth of matters, make meaning out of available information, learn problem solving in whichever domains they are inclined to and yet be holistic in their thinking due to the interconnections and interdependencies in the world. One must also be mindful that independent decision making must be encouraged for students at the Post graduate level. This means that students at this stage must chart their professional career while being lifelong learners. This process begins during the programme itself and hence the MMS now needs to offer a plethora of optional subjects which are chosen by the students as per their own abilities and aspirations. This will help them to sharpen their focus early on.

Thirdly, in India low cost innovation, offerings for different demographics, emerging markets in rural / tier 2 or 3 towns / urban lower classes are changing the business landscape. Management education has to gear up to nurture people to create new opportunities in this situation.

Another point of relevance is that professional management is now required in other arenas too like social entrepreneurship, public governance and in running voluntary organisations. This renders the scope of the MMS to be more broad-based now.

Along with employability, entrepreneurship must be a thrust area for management graduates. The MMS programme must thus prepare potential entrepreneurs to base their ventures on solid offerings for sustained greatness. They also need to be warned and shielded from the temptations of riding on a perceived wave.

The future of management and business can be sustained only if business is carried out in an ethical and responsible way. Sustainable development is no longer a choice but the only way of taking mankind forward. Sustainable development is not an isolated subject. It needs to be the underlying theme in every domain and practice.

Disciplines are merging in the new economy. Changing values, beliefs, attitudes are causing a new social order. All this impacts industry and redefines industry. The MMS programme needs to help people to navigate through this reality.

The restructured and revised curriculum for MMS is developed considering the current industry needs in terms of skill sets demanded under new business environment. It also endeavours to align the programme structure and course curriculum with student aspirations and corporate expectations.

#### Need for Revision and Restructure of MMS Curriculum

Revision is a learning process. As Donald Norman points out in Things That Make Us Smart, Human intelligence is highly flexible and adaptive, superb at inventing procedures and objects that overcome its own limits. The real powers come from devising external aids that enhance cognitive abilities. To serve our students with developmental needs, a review of the developmental curriculum and institutional structure were needed in order to determine whether the developmental areas reflect recognized best practices. The developmental areas are defined as courses or services provided for the purpose of helping underprepared college students attain their academic goals.

#### **The Current Scenario**

- 1. Changing global facets of businesses and economies
- 2. Dynamism in industry practices and evolution of technology
- 3. Emergence of new businesses and business practices
- 4. Thrust on Application oriented and experiential learning
- 5. Expectations of Key stakeholders viz. Students, Industry and Academicians

#### This has led to

#### **Gaps in Current Curriculum**

- 1. Lack of specialized in depth knowledge in a specific domain.
- 2. Lack of thrust on current management practices.
- 3. Absence of cross-functional skills and holistic thinking.
- 4. The challenge is to become a place, where leadership is promoted and nurtured with a long-term vision.
- 5. B-schools must be creative and introduce innovative courses for the overall development of the students.

#### **Objectives for New Curriculum**

The MMS programme prepares a student for a career in diverse sectors nationally as well as globally. The MMS programme facilitates absorption & application of knowledge in theory and practice across multiple functional areas of management and enables students to adopt an integrated approach towards real life situations and circumstances.

# The Objectives of New Curriculum are

- 1. To thrive in complex reality and to acquire a systemic understanding of what organizations are, how they work and how they can interact effectively with their commercial, social and physical environment
- 2. To nurture and develop higher consciousness, cognitive flexibility by developing a strong base to build professional career and to channel that knowledge into a targeted career direction
- 3. To Change mindset of the Learner and to develop well trained leaders and managers who are responsible citizens.
- 4. Incorporate some flexibility for institutes to teach new and contemporary curriculum for greater employability of their students.
- 5. Make the course attractive for large number of students to specialize in the existing domains and other attractive new domains like education management, corporate law and consultancy streams.
- 6. Institutions should also inculcate multitasking abilities amongst students, learning foreign languages and advanced IT knowledge so that they can perform better in the chosen field nationally and internationally
- 7. Providing more flexibility to individual Institutes for introducing courses/electives.

#### The goal is aimed at to imbibe and enhance the following skill sets

- 1. Exposure to Global practices
- 2. Application of technology and enhancement of technological skills
- 3. Peer based learning and team work
- 4. Experiential Learning (Learning by Action and Application)
- 5. Team building basics and its orientation

With the breadth and depth of our **core** and **electives**, students can take a multidisciplinary approach or delve deeply into a single area.

#### Highlights of the New Curriculum

- 1) additional choices in electives from 1<sup>st</sup> semester
- Providing the much needed flexibility to individual Institutes to carve a niche for themselves
- Reduction in the number of subjects in all semesters to enable students to delve deep into the domain specialization subjects and utilize the time for employment oriented training for their employability.
- 4) Commencement of Specializations from 3<sup>rd</sup> Semester.
- 5) Augmentation in the number of electives starting from 2<sup>nd</sup> semester to provide greater flexibility and choice from the career perspective.

#### Structure of the Revised MMS Curriculum

The courses under the revised structure and curriculum fall under two categories of **Core** (common for all specializations), and **Electives** (choice for students within specializations) leading towards super specialization. The electives component will provide flexibility and allow the institutes to provide some initiatives in new courses, coaching and mentoring process to nurture professional competencies. List of elective courses allows flexibility for institutes to teach courses keeping in mind industry needs and student's profile so as to enable them to position themselves based on their areas of expertise.

The essence of this structure is to encourage students to "**think like a mountain**", starting with a broad canvas to assimilate knowledge from all facets of management and meticulously move towards acquisition and practice of excellence in a specific and desired domain of expertise.

#### Learning Pedagogy

- 1. Foundation Course is the cornerstone of the MMS program. It is offered before the commencement of MMS programme to acquaint with the basics of the course.
- The first semester is the foothill, where the odyssey begins. A common base of knowledge essential for all management professionals. The first semester shall be consisting of 8 subjects - 5 (five) core and 3 (three) elective from the bunch of 10 subjects.
- 3) Having cleared the foothills, students in the second semester endeavour to attain further skill sets through an integrated frame work, which guides them towards their desired field through subtle introduction of relevant subjects. The second semester would consist of eight subjects of which 5 subjects would be core subjects and 3 subjects would be electives from the bunch of 10 subjects.

#### **Teaching Pedagogy**

Teachers are expected to impart knowledge along-with traditional teaching through new and innovative pedagogical approaches.

#### Some of these techniques are: -

Reading, Group Discussions, Lectures, Role plays, Field Work, Workshops, Counseling Sessions, Watching Educational and Informative Videos, Assignments, Quizzes, Tests, Live Projects, Case Studies, Presentations, Simulations, Industrial Visits, Participation in academic and extra – curricular activities, inculcation of industry specific skills and training & development sessions.

Semester	:	I - Core	
Title of the Subject / course	••	Perspective Manageme	ent
Course Code	••		
Credits	:	4	Duration in Hrs : 40

# Learning Objectives

1	To explain the relationships between organizational mission, goals, and objectives
2	To comprehend the significance and necessity of managing stakeholders
	To conceptualize how internal and external environment shape organizations and their
3	responses
	To develop critical thinking skills in identifying ethical, global, and diversity issues in
4	planning, organizing, controlling and leading functions of management
5	To Understand organizational design and structural issues
	To understand that citizenship involves taking conscious steps for societal advancement
6	at individual level and organizational level

Prerequisites if any	
Connections with	
Subjects in the current or	
Future courses	

Sr. No.	Content	Activity	Learning outcomes
1	Fundamentals for personal and organisational success Fundamentals of personal leadership	Lecture, interaction, discussion.Examining success stories through videos of industry pioneers followed by discussion	The student will be able to look at multiple perspectives that impact business and life.
2	Management: Science, Theory and Practice – The Evolution of Management Functions of Management Nature and purpose of Planning Objectives, Strategies, Policies and Planning Premises – Decision making – Global Planning	Self-study, Discussion, Quiz	To demonstrate empirical understanding of various organizational processes and behaviors and the theories associated with them
3	Managing your career and understanding organisational dynamics: - Leadership functions and corresponding skills required - Choosing the right positions	Discussion	The student will be able to demonstrate leadership behaviours which will be three pronged: leading self, leading others and leading for change and impact.

Sr. No.	Content	Activity	Learning outcomes
	<ul> <li>Special dilemmas of early career</li> <li>Landing stretch assignments</li> <li>Building a network of relationships</li> <li>Challenges faced by the minority</li> <li>Developing ethical judgment</li> <li>Assessing your career</li> </ul>		
4	Managing in adversities / Management of crisis	Case Study	The Student will explore different approaches and their consequences during crisis management
5	Social Responsibility, Ethics and Sustainable Development	Discussion, Case study, Group work, Movie, Student Presentation, Debate on MBA Oath	To understand the role of managers and citizens in society
6	Mind control and spiritual Quotient	Literature Reading, Discussion	The Student will learn ways of staying positive and having a healthy mind
7	Role and Responsibilities of a Manager, Effective and Ineffective Managerial styles	Caselets, role plays and discussions	To understand the roles and functions of managers at various (entry, middle and the top) levels
8	Difference between management and leadership, Understanding Level 5 Leadership	Literature reading and Discussion	The student will understand the behavior, skills and mindset of a manager and of a leader.
9	Strategic Management – Definition, classes of decisions, levels of decision, Strategy, Role of different Strategists, Relevance of Strategic Management and its benefits, Strategic Management in India	Discussion, Student Presentations, Case study	The Student will understand various concepts and examples related to Strategic Management
10	Change Management	Discussion, Movies, Case study	The Student will learn about the various steps to be followed to bring about change
11	Total Quality Management	Discussion, Quiz	The Student will understand the concepts and examples of TQM

1	Principles and Practices of Management by DrKiranNerkar and Dr Vilas Chopde			
2	Principles of Management – Davar			
3	Essentials of Management – Koontz & Weihrich			
4	Strategic Management – V S P Rao& V Hari Krishna

# PROGRAM: MMS

Semester	:	I - Core			
Title of the Subject / course		Financial Accounting			
Course Code					
Credits	:	4	Duration in Hrs.	:	40

# Learning Objective

1	To understand the basic concepts and fundamentals used in financial accounting.
2	To learn all the intricacies of corporate financial statements.

Prerequisites if any	
Connections with	This subject will provide basic knowledge of accounting which will be useful
Subjects in the current or	and required for the subjects in the area of finance in the upcoming terms
Future courses	

Sr. No.	Content	Activity	Learning outcomes
1	Introduction to Accounting Meaning and necessity of accounting Accounting cycle An overview of Financial Statements – Income Statement and Balance Sheet	Lecture and discussion	Clarity and understanding of the basic concepts of accounting and financial statements
2	Introduction and meaning of GAAP, IFRS and Ind AS Important Accounting Standards Concepts used in accounting Concepts related to Income Statement and Balance Sheet Accounting Equation and its relation to accounting mechanics	Theoretical discussion and explanation	Ability to apply the principles and concepts of accounting in preparing the financial statements
3	Accounting mechanics and process leading to preparation of Trial Balance and Financial Statements	Theoretical discussion and exercises	Ability to execute the accounting process- Recording- Classifying and Summarizing. Understanding the use of accounting software
4	Preparation of Financial Statements with Adjustment - 'T' form and vertical form of financial statements Detailed discussion and understanding of various items in Schedule III Preparation of Corporate Financial Statements and Notes to Accounts	Theoretical discussion and problem solving	Detailed and in depth understanding of all the items in the corporate financial statements
5	Revenue recognition and measurement Capital and revenue items Treatment of R & D expenses Preproduction cost Deferred revenue expenditure etc.	Theoretical discussion and exercises	Understanding the principles of revenue recognition and ability to distinguish between revenue and capital income and expenditure and their treatment in corporate financial statements
Sr.	Content	Activity	Learning outcomes

No.			
6	Fixed Assets and Depreciation Accounting	Theoretical discussion and problem solving	Understanding different methods of depreciation and their impact on profitability and asset valuation
7	Evaluation and accounting of Inventory	Theoretical discussion and problem solving	Understanding the concepts of inventory valuation and their effect on profit and cost of goods sold.
8	Fund Flow Statement Cash Flow Statement	Problems and exercises with theoretical discussion	Ability to prepare a statement of changes in financial position with respect to working capital and cash flow.
9	Corporate Financial Reporting – Reading of Annual Report, Presentation and analysis of audit reports and directors report. (Students should be exposed to reading of Annual Reports of companies both detailed and summarized version)	Assignment discussion	Ability to read Annual Reports, Presentation and analysis of audit reports and directors' report
10	Basics of Cost Accounting	Theoretical discussion	Understanding basic cost concepts and ability to prepare a simple cost sheet
11	Ethical Issues in accounting	Theoretical discussion	Understanding the difference between errors and frauds; creative accounting and the Corporate Governance Report.

#### **Text Books**

1	Financial Accounting for Management – Dinesh D Harsolekar
2	Financial Accounting – Text and Cases – Dearden and Bhattacharyya
3	Accounting- Text and Cases – Robert Anthony, david Hawkins and Kenneth Merchant

#### **Reference Books**

1	Financial Accounting - Reporting & Analysis – Stice and Diamond
2	Full Text of Indian Accounting standard – Taxmann Publication

#### **PROGRAM: MMS**

Semester	:	I - Core			
Title of the Subject / course	:	<b>Business Statistics</b>			
Course Code	:				
Credits	:	4	Duration in Hrs.	:	40

## Learning Objectives

1	To know statistical techniques
2	To understand different statistical tools
3	To understand importance of decision support provided by analysis techniques
4	To appreciate and apply it in business situations using caselets, modeling, cases and projects
5	To understand Managerial applications of Statistics

Prerequisites if any	Basic Mathematics
Connections with	Operations Research, Economics, Research Methodology, Quantitative
Subjects in the current	Techniques, Project Management, Financial Management, production and
or Future courses	operations management,

Sr. No.	Content	Activity	Learning outcomes
1	Revision of Data Representation, Central Tendency and Dispersion Kurtosis and Skewness	Problem solving, cases demonstrating typical uses of mean, mode median, Use of Microsoft Excel, available software	Learner will be able to apply these basic concepts in business situations, Analyse charts graphs to analyse business situations
2	Probability- Axioms, Addition and Multiplication rule, Types of probability, Independence of events, probability tree, Bayes' Theorem	Solving problems and Caselets, Writing short cases	Understand the uncertainty in business situations as probability
3	Concept of Random variable, Probability distribution, Expected value and variance of random variable, conditional expectation, Classical News Paper boys problem(EMV, EVPI)	Problem solving , Creating decision tree, cases	Understand decision under risk, use of conditional expectation as basis for comparison
4	Probability distributions Binomial, Poisson, Normal	Problem solving, Microsoft excel, cases	Use of distributions in Quality control, Six sigma and process control
5	Sampling distribution	Problem solving, Microsoft excel	Importance of Central limit theorem
6	Estimation- Point estimation , Interval estimation	Problem solving, Microsoft Excel	Understand Confidence interval as way of hypothesis testing
7	Hypothesis testing- students t, Chi square, Z	Problem solving, Microsoft excel, cases	Use in research

Sr. No.	Content	Activity	Learning outcomes
8	Analysis of variance- one way, two way	Problem solving, Microsoft excel, cases	Use in research
9	Correlation and regression Analysis and significance	Problem solving, Microsoft excel, cases	Understand Model building

1	Statistics for Management	Richard Levin, David Rubin, Prentice Hall of India
2	Statistics for Managers	Levine, Stephen, Krihbiel, Berenson, Pearson Education
3	Complete Business Statistics	Aczel Sounderpandian, Tata McGraw Hill

#### **Reference books**

1	Statistics for Business and Economics	Newbold, Carlson, Thorne, Pearson Education
		Anderson, Sweeney, Williams,
2	Statistics for Business and Economics	Cengage Learning
		Albright, Winston, Zappe, Thomson
3	Data Analysis and Decision Making

Semester end	60%

# **PROGRAM: MMS**

Semester	:	I - Core			
Title of the Subject / course	:	<b>Operations Manageme</b>	nt		
Course Code	:				
Credits	:	4	Duration in Hrs.	:	40

## Learning Objectives

1	To expose a student of Management to operations principles.
2	To understand basic operating principles in product and service industry
	To be able to apply different analytical techniques of operations Management in different industry
3	sectors like hotel, hospital, mall, BPO, Airlines, manufacturing, consulting etc.

Prerequisites if any	Exposure to MS-excel
<b>Connections with Subjects</b>	
in the current or Future	Manufacturing Resources planning and control, Quantitative models in
courses	Operations, Operations analytics, Operations applications and cases

Sr. No	Content	Activity	Learning outcomes
1	Introduction to Operations Management, applications in product and service industry, use of competitive advantage	Lecture, examples	Understand the basic concepts and learn how to apply the same.
2	Process analysis in Industry	Lectures, cases	Understand the physical processes
3	Facility location	Lecture, examples	Understand characteristics of equipment, machines and workflow
4	Facility layout	Lecture, examples	Understand characteristics of equipment, machines and workflow
5	Inventory Management, EOQ, ABC analysis, Discount policy	Lecture, examples, cases	Understand how, when, what and how much to order, stock and cost implications
6	Capacity and introduction to aggregate planning, PPC	Lecture, examples, cases	Understand capacity utilization, overall production planning and control
7	Basics of MRP	Lecture, examples, cases	Understand concept of dependency
8	Sequencing techniques	Lecture, examples,	Understand and implement optimal ordering of jobs
9	Introduction to Service Operation management	lecture, examples, cases	Understand application of operation to services
10	Work study and method study	lecture, examples	Understand measurement of time management
11	QC and SQC	lecture, examples	Understand quality and control methods, understand sources of variation and identify them on charts, process improvement

Sr. No	Content	Activity	Learning outcomes
12	ISO systems, Value engineering and analysis	lecture	Understand global standards, cost reduction
13	Introduction to supply chain management	Lecture	Understand basic concept of supply chain
C	Cases and presentation		

1 Theory & Problems in Production & Operations Management- S N Chary, Tata McGraw Hill	
2 Production & Operations Management -Kanishka Bedi, Oxford University Press	

# **Reference books**

# **PROGRAMME : MMS**

Semester	:	I - Core	
Title of the Subject /	:	Managerial Economics	5
course			
Course Code	:		
Credits	:	4	Duration in Hrs : 40

# Learning Objectives

1	To enable the students to understand both the theory and practice of Managerial Economics,
2	To ensure that the students are in a position to appreciate the finer nuances of the subject.
3	To help the students in applying the knowledge so acquired in policy planning and managerial decision making.

Prerequisites if any	Nil
Connections with Subjects in the current or Future courses	<ol> <li>This would be a pre-requisite to the second semester paper on Business Environment, which mainly deals with macroeconomic issues, and,</li> <li>Both Managerial Economics and Business Environment papers also constitute the base for studying Strategic Management, which is a University paper in the third semester.</li> </ol>

Sr. No	Content	Activity	Learning outcomes
1	Introduction to Managerial Economics: The meaning, scope and methods of Managerial Economics, Dominic Salvatore model of application of Economics to business decision making. Scarcity, choice & production possibility curve.	Lecture& case study	The students should be able to decipher, analyse and apply the theory and practice of Managerial Economics
2	Consumer Behavior- I: Demand, types of demand, factors affecting demand & demand function. Making of linear demand function & linear demand curve. Law of demand. Consumer's surplus	Lecture& case study	Students develop an understanding of a businessman need to locate various factors affecting demand of his product and plan marketing & business strategies accordingly. Students develop an understanding of the practical application of law of demand.
3	Consumer behavior – II: Concept of elasticity of demand and its significance for a businessman. Types of	Lecture& case study	Students develop an understanding of the various concepts and its applications.

Sr. No	Content	Activity	Learning outcomes
	Elasticity – Price Elasticity of Demand, Income Elasticity of Demand, Cross elasticity of demand & Promotional Elasticity of Demand, Demand forecasting – features, significance & methods		
4	Supply – concept of supply, factors affecting supply& the law of supply Determination of equilibrium price :effects of changes in demand & supply on equilibrium price	Lecture & case studies	Students should understand the analytics of supply and demand and its various uses.
5	Production Function: Concept, Isoquant &Isocost analysis	Lecture and a case study	Student should get an holistic understanding of production economy.
6	Laws of returns to scale, economies & diseconomies of scale		
7	Revenue Analysis, Cost analysis and break even analysis	Lecture	Students will follow the relationship between costs, revenues, profits and losses
8	Types of markets: perfect competition, monopoly, oligopoly & monopolistic competition – features and price determination	Lectures & case study	Students will learn about the intricacies of the various market forms and their impact on the economy and business.
9	Types of markets: perfect competition, monopoly, oligopoly & monopolistic competition – features and price determination	Lectures & case study	Students will learn about the intricacies of the various market forms and their impact on the economy and business.
10	Pricing practices: Factors affecting pricing decision. Marginal cost pricing, mark up pricing, transfer pricing, product line pricing, price skimming and penetration price.	Lectures & cases	Awareness of students about various pricing practices.
11	<ul> <li>Profit management</li> <li>Role of profits in a market economy</li> <li>Nature and measurement of profit, profit policies</li> <li>The hypothesis of profit maximization and it's alternatives</li> </ul>	Lecture	Students learn about the role of profit in business.

Sr. No	Content	Activity	Learning outcomes
12	<ul> <li>Demand for capital</li> <li>Supply of capital</li> <li>Capital Rationing</li> <li>Capital Budgeting, Net Present Value(NPV), Internal Rate of Return(IRR).</li> <li>Appraising - the profitability of projects</li> </ul>	Lecture	Students should realize the importance of the different methods of capital budgeting as a tool of project management.
13	Presentations by students		Students should realize the importance of the different methods of capital budgeting as a tool of project management.

# **PROGRAM : MMS**

Semester	:	I - Elective
Title of the Subject / course	••	Effective and Management Communication
Course Code	••	
Credits	:	4 Duration in Hrs : 40

# Learning Objectives

1	In all social behavior, communication is essential in building and maintaining human relationships.
2	In business, communication is essential for the smooth and efficient conduct of day-to-day transactions/activities.
3	In recent years the importance of communication has greatly increased as a result of the growing complexity of businesses, as also the impact of rapid industrialization, globalization and the advent of modern technologies.
4	English being globally the language of Management, those with good communication skills in English enjoy a distinct advantage in their work and careers.

	Decent working knowledge of the English language (including	
	Grammar) is a must, keeping in mind that most	
	business/management transactions in India and internationally are	
Prerequisites if any	conducted in the English language.	
	English is globally the most widely spoken language and it is the	
Connections with	accepted language of the business world. It is the medium of	
Subjects in the current or	instruction for this course, hence it impacts every subject and future	
Future courses	courses.	

Sr. No.	Content	Activity	Learning outcomes
1	Introduction and Theory of Communication: nature, function & scope; The 7 Cs of communication	2 sessions (3 hrs)	Historical background and the development of communication; Importance and role of communication in everyday life
2	The communication Process: classification, components and models of communication; Problems in communication (Filters)	2 sessions (3 hrs)	Mechanics behind the communication process, difficulties experienced in communication
3	Channels of communication: Formal v/s Informal, Upward, Downward, Horizontal, Grapevine; Barriers to communication.	2 sessions (3 hrs)	Different types of communication, impedance due to extraneous factors called "barriers"
4	Verbal and Non-verbal communication: Listening, Kinesics, Paralanguage, Proxemics	2 sessions (3 hrs)	Important non-verbal parameters in communication
5	Essentials of effective verbal communication: Voice modulation, Tone, Pitch,Knowledge and self confidence	2 sessions (3 hrs)	How to make your communication effective and attractive

Sr. No.	Content	Activity	Learning outcomes
6	Meetings: Types; purpose. Group Discussions: Do's and Don'ts; Committees: Types, Advantages and disadvantages, effectiveness.	2 sessions (3 hrs)	Communication in groups, guidelines to improve performance/effectiveness in group interactions
7	Public Speaking: Preparation, Attire, Posture and Delivery techniques	2 sessions (3 hrs)	How to become a convincing and forceful public speaker
8	Written communication: Business letters, Types, Essentials, Format, common errors. e-mail: format, language and courtesy, common errors.	2 sessions (3 hrs)	Ways to achieve impressive and meaningful written communication

Course Code	:				
Credits	:	4	<b>Duration in Hrs</b>	:	40

## Learning Objectives

	China is the world's fastest growing economy and hasbecomes the factory of the world, also
	the world's supply chain and logistics is heavily focused towards China. China being one
	of the few countries in the world which has not adopted English it becomes imperative to
1	learn Chinese to enable business dealings with the country.
	Many multinationals have invested in China, because of the cheap labor and other such
	comprehensive factors available here we can take the example of Apple which
	manufactures most of its phones in China There is hardly any country that does not have
2	business dealings with China. Therefore the advantage of learning this language is huge.
	The course should be able to enable basic communication in Chinese so that one can
3	understand simple Chinese words and phrases
	To be able to use Chinese in everyday situations such as greeting a person asking for
4	directions in short to be able to interact in a simple manner.
5	Carry out simple conversations with Chinese people.
	Read and write simple phrases in pinyin (spelling Chinese words with the western alphabet)
	Read signs written in Chinese and be able to read simple notices documents and articles
6	written in Chinese
	Understand the elements of Chinese characters and evaluate the advantages as well as
	limitations of a pictographic writing system in contrast with western writing systems
	Understand the construction of Chinese characters recognizing approximately 120 Chinese
7	characters as well as the radicals
	Reflect on cultural differences and similarities between Indian and Chinese societies, for
	example with regard to housing and family relationships and gender roles as well as
8	treatment of minorities and the elderly.

Prerequisites if any	none
Connections with Subjects in the	
current or Future courses	none

Sr. No.	Content	Activity	Learning outcomes
1	<ul><li>Course introduction.</li><li>Chinese pronunciation and the five tones.</li><li>Chinese sentence structure and grammar.</li></ul>	1sessions 3 hours each	Preparatory foundation to be able to progress towards learning the language
2	<ul> <li>Simplified Chinese characters and Pinyin Romanization system.</li> <li>Greeting and Introducing each other.</li> <li>Meeting family members.</li> <li>The verbs 姓 (xìng), 叫 (jiào), 是 (shì) and有 (yǒu).</li> </ul>	2 sessions of 3 hours	Able to converse in rudimentary Chinese Example (你好! !How do you do?) Able to make simple inquiry

Sr. No.	Content	Activity	Learning outcomes
	<ul> <li>The adverbs 不 (bù),也 (yě),都 (dōu).</li> <li>The particles 的 (de).</li> <li>Usage of 二 (èr)/两 (liǎng).</li> <li>Questions ending with 吗 (ma) and 呢 (ne), questions pronouns.</li> <li>Measure words.</li> </ul>		(你是哪国人?Where do you come from?)
3	Routine and everyday aspects Dates & Time – taking someone out to eat on his/her birthday and inviting someone to dinner. Hobbies – Talking about hobbies and would you like to play ball? Visiting friends – visiting a friend's home and at a friend's house. Asking Directions Direction and Location Words Direction and Location Words Comparative Sentences with 没(有) (méi{yǒu}) 3 那么(nàme) Indicating Degree 4 到(dào) + Place + 去(qù) + Action Going to Chinatown Seeing a Doctor Seeing a Movie Turning Down an Invitation Renting an Apartment Traveling to Beijing Checking In at the Airport Arriving in Beijing	3sessions of 3 hours	Have a high comfort level if visiting China or if entertaining Chinese visitors to India
4	The adverbs还 (hái) and 才 (cái). The particles吧 (ba) and 了 (le). The conjunction 那么 (nàme). The modal verb 想 (xiǎng). The preposition 在 (zài). Numbers (0, 1–100). Dates and time. Word order in Chinese. Alternative questions, affirmative + negative (A-not-A) questions, questions with 好吗 (hǎo ma). 去 (qù) + action. Verb + object as a detachable compound. 一下 (yíxià) and 一点儿(yìdiǎnr) moderating the tone of voice	2 sessions 3 hours	Learn to write simple words
5	covers the following topics: <b>开学, 宿舍, 在</b> 饭馆儿,买东西,选课. Adverbs <b>真</b> and 难道.	2 session 3 hours	Construct simple sentences

Sr. No.	Content	Activity	Learning outcomes
	Dynamic particle 了. Preposition 至于. The 是的 construction. 除了以外; 再说; 得很; 那(么). - + v; 又adj/verb, 又adj/verb. Emphatic 是; 无论,都 Conjunction 于是; adj/v+是+adj/v, 可是/但是再,又, and 还 compared. 要么,要么 Also connecting sentences, existential sentences, conjunctions, topic-comment sentence structure, resultative compliments. Words and phrases include 恐怕 (I'm afraid; I think perhaps), 差不多(about; roughly), 一般 (generally speaking), 不怎么样 (not that great; just so-so), 这(就)要看(了) (that depends on), 比如(说) (for example),什么的 (Etc.), (要) 不然(otherwise), 非不可 (have to; must), 受不了 (unable to bear), 不过 (but), 这样 (in this way		
6	having students learn to <u>write</u> traditional or simplified characters progressing to simple paragraphs and essays	2 session 3 hours	Be able to write simple paragraphs or articles
7	<ul> <li>Geography, climate, people.</li> <li>Ethnicities, religion, government.</li> <li>Chinese culture &amp; Business etiquette.</li> <li>Cultural differences &amp; sensitivities</li> </ul>	1 session 3 hours	Important to be able to understand and respond to cultural differences and respect them

## Semester II

#### Note:

- All subjects / papers for Semester II will be internally assessed by the institute. The
- <sup>1</sup> Criteria for the same is given below
- a) Attendance and Class Room Participation 10 Marks
- b) Minimum 3 criteria to be picked up from the below given list
  - Mid term Test (Min 1) Group Presentation Role Plays
  - Case Studies
  - Assignments
  - Projects
  - Quiz
- Institute will have the discretion to select minimum 3 (three) subjects or more from
   given list of 10 subjects. Total 32 credits has to be obtained.

Any new elective proposed to be introduced by the Institute, apart from electives listed in the new syllabus, need to take prior approval from Board of Management Studies of

3 the University in writing outlining the details of the course with learning objectives, learning outcomes, detailed syllabus, teaching learning plan and course evaluation procedures atelast 6 months in advance before the commencement of the semester.

Semester	:	II - Core	
Title of the Subject / course		Marketing Managemen	nt
Course Code	••		
Credits	:	4	Duration in Hrs : 40

## Learning Objectives

1	This coursework is designed to introduce the student to the basic elements of the marketing management terms, implementation of studied term in the industry and related process.
2	The scope of marketing management is quite broad and the students will be exposed to the marketing concepts that will enable them to acquaint with contemporary marketing practices.
3	This module is to learn the art and science of choosing target markets and getting, keeping and growing customers through creating, delivering, and communicating superior customer value.
4	This module will give the student a very broad understanding of what marketing is all about and the vital role that it plays in every organization, every department and every specialization.
5	The module will help the student to identify and solve many business problems by using a marketing perspective, as a universal concept.

Prerequisites if any	
Connections with	
Subjects in the current or	
Future courses	

mou	Widule					
Sr. No.	Content	Activity*	Learning outcomes			
1	Introduction to Marketing Concept Evolution of Marketing from Production to Sustainability & Customer Orientation		Students will develop basic understanding of concepts in the marketing with respect to historical development of the subject			
2	Understanding the Basics: Concept of Need, Want and Demand Concept of Product and Brand Business Environment in India Demand States & Marketing Tasks Company Orientation towards the Market Place		Making students familiar with the Fundamental concepts and vocabulary or practices from business perspective in the Organization.			
3	Marketing Environment : Marketing Environment and Evaluation of Market Opportunities like Services, Rural & International		Understanding of the Marketing environment to help students to compare various opportunities available in various sectors.			
4	Market Research & Marketing Information Systems and Demand		To familiarize students with various concepts related to			

Sr. No.	Content	Activity*	Learning outcomes
	Forecasting and Market Potential Analysis		market research and its utility.
5	Consumer Buying Process & Organizational Buying Behaviour		Helping students to focus on Important issues related to success in consumer buying behavioural process vis a vis organizational buying behaviour process.
6	Pillars of Marketing - Market Segmentation, Target Marketing, Positioning & Differentiation		Imparting knowledge of various important marketing concepts.
7	Marketing Mix and Product Decisions – Product Life Cycle, & Brand		Various practices related to The important aspects of marketing in decision Making
8	New Product Development Process		Understanding mechanism of developing a new product related process
9	Pricing Decisions		To understand the pricing dynamics being practiced by the organizations in different Sectors

## Learning Objectives

	To understand the importance of research and various methods that researcher used to
1	investigate problems
2	Applying Modern Analytical tools for Business Management Decisions
3	To derive strategies from the research
4	To understand the challenges in collecting the data collection and analysis
5	To interpret the data to make meaningful decisions.

Prerequisites if any	
Connections with	
Subjects in the current or	
Future courses	

Sr. No.	Content	Activity	Learning outcomes
1	Introduction to Research	Lecture	Meaning of research; Types of research- Exploratory research, Conclusive research; The process of research; Research applications in social and business sciences; Features of a Good research study.
2	Research Problem and Formulation of Research Hypotheses	Lecture	Defining the Research problem; Management Decision Problem vs Management Research Problem; Problem identification process; Components of the research problem; Formulating the research hypothesis- Types of Research hypothesis; Writing a research proposal- Contents of a research proposal and types of research proposals.
3	Research Design	Lecture	Meaning of Research Designs; Nature and Classification of Research Designs; Exploratory Research Designs: Secondary Resource analysis, Case study Method, Expert opinion survey, Focus group discussions; Descriptive Research Designs: Cross- sectional studies and Longitudinal studies; Experimental Designs, Errors affecting Research Design
4	Primary and Secondary Data	Field Work	Classification of Data; Secondary Data: Uses, Advantages, Disadvantages, Types and sources; Primary Data Collection: Observation method, Focus Group Discussion, Personal Interview method

Sr. No.	Content	Activity	Learning outcomes
5	Attitude Measurement and Scaling	Lecture	Types of Measurement Scales; Attitude; Classification of Scales: Single item vs Multiple Item scale, Comparative vs Non- Comparative scales, Measurement Error, Criteria for Good Measurement
6	Questionnaire Design	Lecture	Questionnaire method; Types of Questionnaires; Process of Questionnaire Designing; Advantages and Disadvantages of Questionnaire Method
7	Sampling and Data Processing	Case Study and SPSS / Excel	Sampling concepts- Sample vs Census, Sampling vs Non Sampling error; Sampling Design- Probability and Non Probability Sampling design; Determination of Sample size- Sample size for estimating population mean, Determination of sample size for estimating the population proportion Data Editing- Field Editing, Centralized in house editing; Coding- Coding Closed ended structured Questions, Coding open ended structured Questions; Classification and Tabulation of Data.
8	Univariate and Bivariate Analysis of Data	SPSS Lab / Excel	Descriptive vs Inferential Analysis, Descriptive Analysis of Univariate data- Analysis of Nominal scale data with only one possible response, Analysis of Nominal scale data with multiple category responses, Analysis of Ordinal Scaled Questions, Measures of Central Tendency, Measures of Dispersion; Descriptive Analysis of Bivariate data
9	Testing of Hypotheses	Analyzing Primary Data	Concepts in Testing of Hypothesis – Steps in testing of hypothesis, Test Statistic for testing hypothesis about population mean; Tests concerning Means- the case of single population; Tests for Difference between two population means; Tests concerning population proportion- the case of single population; Tests for difference between two population proportions.
10	Chi-square Analysis	Analyzing Primary Data	Chi square test for the Goodness of Fit; Chi square test for the independence of variables; Chi square test for the equality of more than two population proportions
11	Analysis of Variance	Lecture and Analyzing Primary Data	Completely randomized design in a one-way ANOVA; Randomized block design in two way ANOVA; Factorial design
12	Research Report Writing and Ethics in research	Lecture	Types of research reports – Brief reports and Detailed reports; Report writing: Structure of the research report- Preliminary section, Main report, Interpretations of Results and

Semester	:	П
Title of the Subject /	:	Business Environment
course		
Course Code	:	
Credits	:	4 Duration in Hrs : 40

## Learning Objectives

1	To sensitize the students to the multi-faceted environment of business.
	to enable them to appreciate the finer nuances of the environment, and,
2	
	to improve their ability to operate effectively in the contemporary globalized world as
3	managers or entrepreneurs

Prerequisites if any	Nil
	1: It would also deal with macroeconomic issues, and, thus
	become an essential sequel to Managerial Economics dealing
<b>Connections with</b> with microeconomics in Semester I, and,	
Subjects in the current or	2: it would be an essential pre-requisite to the University paper
Future courses	on Strategic Management in Semester III.

Sr. No	Content	Activity	Learning outcomes
1	Business environment - definition, nature and scope, distinction between internal and external environment of business, limitations of environmental analysis.	Lecture	The students should be able to decipher, analyse and understand the environment of business.
2	Socio-cultural environment of business: elements of culture, the impact of culture on business, multiculturalism	Lecture and a case study	The students should be able to decipher, analyse and understand the environment of business.
3	Political environment of business: The State and it's branches, political ideals including liberty, equality, fraternity and tolerance. The politics of coalition governments	Lecture and a case study	The students should be able to decipher, analyse and understand the environment of business.
4	Regulatory environment of business, including the need for effective regulation and governance as well as the ingredients of a good system of regulation	Lecture	The students should be able to decipher, analyse and understand the environment of business.
5	Regulatory environment of business, including the need for effective regulation and governance as well as the ingredients of a good system of regulation	Lecture	The students should be able to decipher, analyse and understand the environment of business.

6	Ecological issues and sustainable development	Do	The students should be able to decipher, analyse and understand the environment of business.
7	National Income: Growth and development. Interconnectivity between macroeconomic variables & Business Cycles. The concept of Inclusive growth Subsidies, JAM (Jandhan, Aadhar and Mobile) and the "Make in India Campaign".	Lecture	Students should be able to understand the need for various campaigns and also the impact of changes in the various macroeconomic variables on economy as well as on business.
8	Money and Banking: including money supply, demand for money, credit creation.	Lecture	Students should be able to understand the need for various campaigns and also the impact of changes in the various macroeconomic variables on economy as well as on business
9	Central Banking and Monetary Policy: instruments of credit control, objectives of monetary policy. <b>Inflation: the</b> <b>concept</b> , demand pull, cost push inflation. Inflation & monetary policy	Lecture	Students should be able to understand the various instruments of credit control, and its impact on economy and business.
10	Budget, budgetary deficit, fiscal deficit and fiscal policy: aims, objectives and efficacy.	Lecture and a case study	Students will develop understanding about the Union Budget and its impact on the various sectors
11	The LPG model (Liberalisation, Privatization and Globalisation) : genesis, features, problems and prospects	Lecture	Students should develop an understanding of the opportunities & challenges of the policies relating to LPG with reference to business.
12	Balance of Payments. International trade blocks, IMF, IBRD, WTO.	Lecture	Students should develop a holistic understanding of the external sector as well as multilateral organization.
13	Presentations by students		Students should develop a holistic understanding of the external sector as well as multilateral organization

Semester	:	II - Elective	
Title of the Subject / course	••	Ethos in Indian Management	
Course Code	••		
Credits	:	4	Duration in Hrs : 40

## Learning Objectives

1	To sensitize students to Indian culture and value systems and the impact of this on management thinking and action
2	To increase the level of awareness of the thought leadership emanating from India and understand its relevance in modern times
3	To bring to focus importance of ethical and responsible behavior on the part of young managers

Prerequisites if any	
<b>Connections with Subjects in</b>	
the current or Future courses	

Sr. No.	Content	Activity	Learning outcomes
1	What is Indian Ethos ?	Prior study and group discussions	To understand the distinctive characteristics of the Indian ethos
2	Values	Deriving values from ancient scriptures	To understand the role of human values and professional values in our decisions and everyday life and business
3	Management of Self	Learning from ancient philosophies and spiritual wisdom	To have an awareness of ways for Anger management and Stress Management. To know the concepts of 'Total Quality of the Mind'.
4	Religion	To study the basic principles of different religions and their similarities. Case studies of modern day practices for diversity.	To know the basic tenets and historical roots of the religions followed by people in India. To know the meeting points/commonalities between religions. To appreciate diversity and pluralism in organizations and society
5	The concept of Dharma The concept of Karma	Study the traditional understanding of the concepts. Modern business Case studies revolving around these concepts	To know the meaning of corporate dharma and corporate karma. To understand the significance of Ethics as part of the Indian ethos.
6	Kautilya's Principles	Study the principles and find their modern relevance and application	To understand the relevance of Kautilya's principles in terms of the role of the leader in today's times

Sr. No.	Content	Activity	Learning outcomes
7	Leadership	Study the leadership and management preachings from the epics of Ramayana and Mahabharata	To understand the responsibilities of leadership
8	Social Responsibility, Sustainable Development Giving, Trusteeship concept of Mahatma Gandhi	Research on the traditional importance of 'Social Responsibility' Case studies on Sustainable Development	To understand the essence of the Trusteeship concept of Mahatma Gandhi. To understand modern day practices of sustainable development around the world.
9	The Constitution of India – Preamble of the Constitution, Fundamental Duties mentioned in Chapter IV A - Article 51 A	Discussion on current affairs / episodes and approach towards them	To understand and internalize the concepts and meanings of the core message in the Preamble and in the Fundamental Duties laid in the Constitution. To objectively and progressively analyze current issues, challenges and solutions affecting today's Indian society and Indian industry.

#### Assessment

Internal	40%
Semester end	60%

#### MMS Revised Guidelines under Credit Based Semester and Grading System:

#### (10 point grading system)

#### **EXAMINATION / ASSESSMENT AND GRADING**

Semester wise performance assessment of every registered learner is to be carried out through various modes of examinations. These include Internal Assessment and End Semester Examination. Internal Assessment includes class tests, home assignments based on live problems, course projects either in a group or individually. The modes of evaluation and distribution of weightage for each of the assessments is given in the syllabus manual of the programme. Normally weightage of Internal Assessment and End Semester Examination is 40 and 60 percentage respectively.

#### Mode of Assessment/Evaluation

#### Mode of Evaluation for Theory Course:-

The various modes of assessment used for rating learners' performance in a theory course include

- 1. Internal Assessment and End Semester Examination. Relative weightage for Internal Assessment is typically 40 percent and will be evaluated by the faculty as per his/her Teaching Learning Plan submitted at the beginning of the academic year.
- 2. The end semester examination will be held at the end of the Semester planned by the Institute and the relative weightage for this would be 60 percent. It is normally of 3 hours duration and will cover the full syllabus of the course. The end semester examination is mandatory. The grade for theory courses can be awarded only after successful completion of both Internal Assessment and End Semester Examination of the respective course.

#### **Mode of Evaluation of Projects**

If the performance of a student is to be evaluated through Project work for any course since for a subject like "Creativity & Innovation" the Internal Examination OR End Term Examination (written) may not be suitable method of evaluation then the project evaluation to be done as per the following guidelines keeping the ratio of Internal and End term Examination intact to 40 and 60 respectively.

The learner (individual / Group) to be given a **Project** – (Problem or a situation) for which he needs to Prepare the solution. This Project is to be graded, at the end of the respective semester. The projects are supervised or guided, and need regular interaction (atleast once a week) with the mentor/guide. Project group has to submit a project report and defend it in front of a panel of examiners. Panel of examiners for Project evaluation will be appointed by Head of Department/Institute. The project report will not be accepted if students fail to complete the project successfully and submit on or before the deadline given for the project submission.. The **grade** for **Project** can be awarded only after **successful completion** of **Term Work** and **Oral Presentation** / **viva-voce** as per the schedule.

For Example, if a faculty wants to evaluate the learners' performance through a project for 100 marks. He can devise the marks allocation as 40 marks for "the conceptual understanding of the Topic, Introduction and methodology he wishes to adopt and 60 marks for the actual data collected, usage of methodology he thought of , preparation and presentation of the report with conclusions and presentation to the panelists.

Another example is a subject, "Developing Teams and Effective Leadership". These skills should be learnt by doing rather than by learning theory and writing examination. Therefore, an institute offering this subject may evolve a suitable method of evaluation and break it into internal and end semester evaluation.

#### **Grading of Performance**

#### Letter Grade and Grade Point Allocation

The Revised Credit and Grading System will be effective from the academic year 2016-2017 for the Faculty of Management of University of Mumbai. In every Course, based on the combined performance in all assessments, in a particular Semester as per the curriculum/syllabus, the student is awarded a letter grade. These letter grades not only indicate a qualitative assessment of the learner's performance but also carry a quantitative (numeric) equivalent called the Grade Point. The letter grades and their equivalent grade point applicable for **MMS** program are given below: A learner who remains **absent** in any form of **evaluation/examination, letter grade** allocated to him/her should be **AB** and corresponding **grade point** is **zero.** He/She should reappear for the said evaluation/examination in due course.

Range of percentage of	Letter	Grade	Performance	SGPA / CGPA
Marks	Grade	Point		Range
80 and above	0	10	Outstanding	9.51 - 10
75-79.99	A+	9	Excellent	8.51 - 9.50
70-74.99	А	8	Very Good	7.51 - 8.50
65-69.99	B+	7	Good	6.51 – 7.50
60-64.99	В	6	Fair	5.51 - 6.50
55-59.99	C	5	Average	4.51 - 5.50
50-54.99	Р	4	Pass	4.0 - 4.50
Below 50	F	0	Fail	< 4
Absent	AB	0	Fail	

#### **SGPA/ CGPA Calculation**

#### Semester Grade Point Average (SGPA)

The performance of a learner in a semester is indicated by a number called Semester Grade Point Average (SGPA). The SGPA is the weighted average of the grade points obtained in all the courses by the learner during the Semester. For example, if a learner passes five courses (Theory/Projects etc.) in a semester with credits  $C_1$ ,  $C_2$ ,  $C_3$ ,  $C_4$  and  $C_5$  and learners grade points in these courses are  $G_1$ ,  $G_2$ ,  $G_3$ ,  $G_4$  and  $G_5$  respectively, then learners' SGPA is equal to:

SGPA = 
$$\frac{C_1G_1 + C_2G_2 + C_3G_3 + C_4G_4 + C_5G_5}{C_1 + C_2 + C_3 + C_4 + C_5}$$

The SGPA is calculated to two decimal places. The SGPA for any semester will take into consideration the "F or AB" grade awarded in that semester. For example if a learner has failed in course 4, the SGPA will then be computed as:

SGPA = 
$$\frac{C_1G_1 + C_2G_2 + C_3G_3 + C_4 * ZERO + C_5G_5}{C_1 + C_2 + C_3 + C_4 + C_5}$$

#### **Cumulative Grade Point Average (CGPA)**

An up to date assessment of the overall performance of a learner from the time s/he entered the University of Mumbai is obtained by calculating a number called the Cumulative Grade Point Average (CGPA), in a manner similar to the calculation of SGPA. The CGPA therefore

considers all the courses mentioned in the curriculum/syllabus manual, towards the minimum requirement of the degree learner have enrolled for. The CGPA is calculated at the end of every semester to two decimal places and is indicated in semester grade report cards. The CGPA will reflect the **failed status** in case of **F grade(s)**, till the course(s) is/are **passed**. When the **course(s)** is/are **passed** by obtaining a **pass grade** on subsequent examination(s) the **CGPA** will only reflect the **new grade** and not the **fail grades** earned earlier.

Example: Up to semester r a learner has registered for n courses, among which s/he has "F" grade in  $i^{th}$  course. The semester grade report at the end of semester r therefore will contain a CGPA calculated as:

CGPA = 
$$\frac{C_1G_1 + C_2G_2 + C_3G_3 + \dots + C_i * ZERO + \dots + C_nG_n}{C_1 + C_2 + C_3 \dots + C_i + \dots + C_n}$$

Even if a learner has **failed** in a course **more than once**, the course will figure **only once** in the **numerator** as well as the **denominator**. At the end of semester r+1 s/he has appeared for examination for k number of courses including the  $i^{th}$  backlog course and has cleared all the courses including the backlog course, the CGPI at the end of this semester is calculated as,

CGPA = 
$$\frac{C_1G_1 + C_2G_2 + C_3G_3 + \dots + C_i + G_i + \dots + C_nG_n}{C_1 + C_2 + C_3 \dots + C_i + \dots + C_n}$$

There will also be **a final CGPA** calculated which considers **all the credits earned** by the learner specified for a particular programme.

#### Illustration of Computation of SGPA and CGPA

#### **Computation of SGPA and CGPA**

i. The SGPA is the ratio of sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits of all the courses undergone by a student, i.e

**SGPA** (Si) =  $\Sigma$ (Ci x Gi) /  $\Sigma$ Ci

where Ci is the number of credits of the *i*th course and

Gi is the grade point scored by the student in the *i*th course.

ii. The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e.

 $CGPA = \Sigma(Ci \times Si) / \Sigma Ci$ 

where Si is the SGPA of the *i*th semester and

Ci is the total number of credits in that semester.

iii. The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts. A Successful learner who has passed in all the courses of each Semesters i.e Semester I, Semester II, Semester III and Semester IV shall be awarded grades as shown in the table given below:

## Grade Table: - Grade Allocation under 10 point grading scale in CBSGS.

Range of percentage of	Letter	Grade	Performance	SGPA / CGPA
Marks	Grade	Point		Range
80 and above	0	10	Outstanding	9.51 - 10
75-79.99	A+	9	Excellent	8.51 - 9.50
70-74.99	A	8	Very Good	7.51 - 8.50
65-69.99	B+	7	Good	6.51 - 7.50
60-64.99	В	6	Fair	5.51 - 6.50
55-59.99	C	5	Average	4.51 - 5.50
50-54.99	Р	4	Pass	4.0 - 4.50
Below 50	F	0	Fail	< 4
Absent	AB	0	Fail	

# Example to illustrate the computation of SGPA and CGPA

# Semester I

Subject	Marks	Grade	Grade Point (Gi)	Credits (Ci)	Ci*Gi	SGPA
Sub-1	95	0	10	4	40	
Sub-2	59	C	5	4	20	SGPA = 108/16
Sub-3	59	С	5	4	20	= 6.75
Sub-4	68	B+	7	4	28	
Credits l	Earned			16	108	
Remarks:					Grade: B+	Range 65-69.99

# Semester II

Subject	Marks	Grade	Grade Point (Gi)	Credits ( Ci )	Ci*Gi	SGPA
Sub-1	60	В	6	4	24	
Sub-2	65	B+	7	4	28	SGPA= 120/16
Sub-3	66	B+	7	4	28	= 7.50
Sub-4	80	0	10	4	40	
Credits l	Earned			16	120	
Remarks	s: Success	sful	Grade: B+	Range65-69.99		

# Semester III

Subject	Marks	Grade	Grade Point (Gi)	Credits ( Ci )	Ci*Gi	SGPA
Sub-1	62	В	6	4	24	
Sub-2	68	B+	7	4	28	SGPA = 128/16
Sub-3	85	0	10	4	40	= 8.00
Sub-4	78	A+	9	4	36	0.00
Credits I	Earned			16	128	
Remarks	s: Success	sful	Grade: A	range 70-74.99		

#### Semester IV

Subject	Marks	Grade	Grade Point (Gi)	Credits ( Ci )	Ci*Gi	SGPA
Sub-1	89	0	10	4	40	
Sub-2	63	В	6	4	24	SGPA = 96/12
Sub-3	72	А	8	4	32	= 8.00
Credits Earned				12	96	
Remarks	Remarks: Successful				Grade: A	range 70-74.99

## **Calculation of CGPA**

Semester	SGPA (Si)	Credits (Ci)	Si*Ci	CGPA	
Ι	6.75	16	108		
II	7.5	16	120	CGPA=	Grade: A
III	8	16	128	452/60	Oraue. A
IV	8	12	96	= 7.53	
<b>Total Credits Earned</b>		60	452		range70-74.99

#### **Heads of Passing**

Internal Assessment (IA) and End Semester Examination (ESE) should be two separate heads for passing. E.g. 40 marks (IA), 60 marks (ESE). Passing standard will be 50% in each individually, i.e 20 marks in (IA) and 30 marks in ESE.

## 3.6 Promotion of Learner and Award of Grades

A learner will be declared **PASS** and be eligible for **Grade** in M.M.S. course (**Post Graduate Programme**) if a learner secures at least 50% marks separately in each head of passing as mentioned above.

Report Card will contain only Grades and no numerical marks.

At the end of each Semester the Grade card which states the performance of the learner in that Semester, is prepared and issued to the leaner. The Grade Card will contain the courses undertaken by the learner, credits of each course, Grade obtained by the learner and SGPA / CGPA in the format given by the University.

#### **Carry Forward of Marks**

In case of a learner who does not fulfill criteria mentioned in section 3.4 and fails in the Internal

Assessment and/or End Semester Examination in one or more courses:

- A learner who PASSES in the Internal Assessment but FAILS in the End Semester Examination of the course shall reappear for the End Semester Examination of that course. However his/her marks of the Internal Assessment shall be carried over and he/she shall be entitled for grade obtained by him/her on passing.
- A learner who PASSES in the End Semester Examination but FAILS in the Internal Assessment of the course shall reappear for the Internal Assessment of that course. However his/her marks of the End Semester Examination shall be carried over and he/she shall be entitled for grade obtained by him/her on passing.

#### **Re-examination of Internal Assessment and End Semester Examination**

**Re-examination** for **Internal Assessment and End Semester Examination** should be completed, as per the schedule planned by the respective institutes, before the commencement of next semester theory examination.

**Example:** A learner who is supposed to reappear for *Internal Assessment or End Semester Examination* in semester-I course will appear for the re-examination before commencement of End Semester Examination of semester -II. However, if a learner has to appear for the re-examination for a subject in semester II then the examination should be conducted and the result should declared by the institute before the examination forms for the semester III are sent to the University.

*Re-examination of Internal Assessment* will be based on single examination having same marks as of original assessment. A learner who supposed to reappear for Internal Assessment will be given some work by the concerned teacher. The work assigned can be of the form of a course project/ assignment problems/ test/ tutorials etc. A learner will do the submission of the assigned work in the predefined period. Records should be maintained properly for all the re-examinations as well as Internal Assessments.

#### Rules for Standard of Passing and Allowed to Keep Terms (ATKT)

- Under the newly introduced credit based grading system of MMS programme, a learner in order to pass has to obtain minimum 50% marks in aggregate consisting of minimum 50% marks in each set of the examinations separately i.e. internal examination and external examination, as per the standard of passing.
- Learner(s), who do not obtain minimum 50% marks in subject(s)/paper(s)/course(s) either in the internal assessment or in the external examination or both, shall be declared as "Fail" as per the standard of passing of examination.
- 3. A learner failing in not more than two subjects/papers/courses in the Semester I exam shall be allowed to keep terms in Semester II of the MMS programme.
- 4. A learner who has failed in more than two subjects/papers/courses in the Semester I exam, shall not be permitted to proceed to Semester II of his/her first year MMS programme. He/ She will, however, be eligible to re appear for the subjects in which he /she has failed in the first semester by re registering himself/herself in the supplementary examination to be conducted by the institute.
- A learner who has passed in both the semester examinations conducted by the institute i.e.: Semester I and Semester II examinations shall be eligible for admission into Semester III of the MMS programme.
- 6. A learner failing in not more than two subjects/papers/courses in the Semester III examination shall be allowed to keep terms in Semester IV of the MMS programme.
- 7. A learner, who has failed in more than two subjects/papers/courses in Semester III, shall not be permitted to proceed to Semester IV of his/her second year MMS programme. He/She will, however, be eligible to re appear in the subjects in which he /she has failed in the third semester by re registering himself/herself in the supplementary examination to be conducted by the institute/university or both.

- A learner who has passed in all of the semester examinations of MMS i.e Semester I, Semester II, Semester III, Semester IV examinations shall not be allowed to re – register himself/herself for improvement of his/her semester examination results.
- 9. A learner who has not appeared in the internal examinations conducted by the institute for due to hospitalization shall as a special case be permitted to appear in those subject(s)/course(s)/paper(s) in the supplementary examination conducted by the institute after he/she furnishes a valid medical certificate certified by the rank of a civil surgeon or superintendent of Government hospital to the satisfaction of the Principal/Director of the institute.

#### SEMESTER EXAMINATIONS

The MMS degree programme under the new credit based grading system shall be of two years duration consisting of Four (04) Semesters. The semester examinations for the Master of Management Studies will be held at the end of every semester i.e at the end of Semester I, Semester II, Semester III and Semester IV. The Semester I examination will be held in the Second half of the academic year in which the learner was admitted (i.e November/December), Semester II examination will be held in the first half of the calendar year (April/May), The Semester III examination will be held in the Second half of the academic year (i.e November/December), Semester IV examination will be held in the first half of the calendar year (April/May) respectively.

Connection with subjects in the current or	Financial Modelling
Future courses	

Sr.No.	Content	Activity	Learning outcomes
1	Introduction to Analytics	Classroom	Basic understanding of
	Meaning, application areas of business	discussion	business analytics
	analytics, techniques of analytics.		
2	Statistics for Business Analytics	Discussion and	Ability to apply various
	Central tendencies and dispersion,	practical using	statistical tools and
	central, limit theorem, sampling	software	techniques in the
	distribution, hypothesis testing, simple		process of business
	linear regression, categorical data		analytics
	analysis, analysis of variance		
	(ANOVA), non-parametric tests.		
3	Advanced Excel Proficiency	Discussion and	Use of advanced Excel
	Describing Numeric Data, Pivot Table	practical on MS	functions
	Analysis, Linear Regression,	excel	
	Comparing Two Sample Variances,		
	Comparing Two Sample Means, Pair T		
	Test, One Way ANOVA, Two Way		
	ANOVA, Generating Random		
	Numbers, Rank and Percentile,		
	Histogram Procedure, Exponential		
	Smoothing and Moving Average,		
	Sampling, Covariance and Correlation,		
	Goal Seek and Solver.		
4	Understanding R	Discussion and	To understand use of R
	Using R Studio, working with data in R,	practical cases	
	R procedures.	on R	
5	Data Mining using Decision Tree	Discussion and	Data mining techniques
	Introduction to decision trees, model	practical using	using R
	design and data audit, demo of decision	software	
	tree development, algorithm behind		
	decision tree and other decision tree.		
6	Data Mining using clustering in R	Discussion and	Data mining techniques

	Understanding abratan analysis	manation lugie -	using D
	Understanding cluster analysis using R,	practical using	using R
	clustering as strategy, hierarchical	R software	
	clustering, non-hierarchical clustering -		
	K means clustering, variants of		
	hierarchical clustering, different		
	distance and linkage functions.		
7	Time Series Forecasting	Discussion and	Data mining techniques
	Time series vs causal models moving	practical using	using R
	averages, exponential smoothing, trend,	software	
	seasonality, cyclicity causal modelling		
	using linear regression forecast		
	accuracy.		
8	Predictive Modelling – Logistic	Discussion and	Evaluation of models
	Regression using R	practical using	
	Data import and sanity check,	R Software	
	development and validation, important		
	categorical variable selection, important		
	numeric variable selection, indicator		
	variable creation, stepwise regression,		
	dealing with multicollinearity, logistic		
	regression score and probability, KS		
	calculation, coefficient stability check,		
	iterate for final model.		
9	Overview of Big Data and Hadoop	Classroom	Understand tools of
	Big data and Hadoop and concept,	discussion	business analytics
	application, cloud computing,		
	generators of big-data.		
10	Data Analysis and Applications	Classroom	Ability to apply
	Credit risk analytics, fraud risk	discussion	business analytic tools
	analytics, financial services marketing		
	analytics.		
L	•	1	1

### **Text Books**

1	Laursen & Thorlund, Business analytics for managers.	
2	Balram Krishnan, Business analytics: concepts and theories.	
3	R N Prasad and Seema Acharya, Fundamentals of business analytics.	

### **Reference Books**

1	Thomas W Miller, Modelling techniques in predictive analytics
2	Lander ,R for everyone: advanced analytics and graphics
3	Evans, Business analytics

### Assessment

Internal	40 %
Semester end	60%

Semester	:	IV – Elective			
Title of the Subject /		Venture Capital and Private Equity			
course	:				
Course Code	:				
			<b>Duration in</b>		
Credits	:	4	Hrs.	:	40

# Learning Objectives

1	To develop general understanding of the venture capital and private equity industry globally and the various players involved.
2	Provide an understanding of the private equity investment process starting from fund raising to exiting.
3	Develop analytical valuation and deal structuring techniques used in venture capital and buyouts.
4	To prepare students for future jobs in VCPE and related industries.

Prerequisites if any	Financial Management	
Connection with subjects in the current or Future	Project and Infra Finance, Mergers	
courses	and Acquisitions and Investment	
	Banking.	

Sr.	Content	Activity	Learning outcomes
No.	Introduction and Overview of Venture	Classroom	Understanding of
	Capital and Private Equity.	discussions	private equity process
	Overview and history of venture capital		1 1 2 1
	industry,		
	evolution of private equity industry and		
	venture capital industry, how to choose and		
	approach a venture capitalist, structure and		
	terms of venture capital and private equity		
	firms.		
2	<b>Process of Venture Capital and Private</b>	Classroom	Understanding how
	Equity Funding	discussions	corporates invest in a
	Venture capital cycle and private equity	and	new private equity
	process.	explanation	
3	Investment Selection, Fund Raising	Numerical	Awareness of the
	Challenges	solving and	current investing
	Sources of capital, alternative forms of fund	classroom	patterns, problems and
	raising and fundraising process and fallacies.	discussions	issues faced by
			industries and PE
			investors
4	Valuation Methods and Techniques	Numerical	Understand financial
	Deal valuation and deal terms.	and	valuation methods and
		classroom	strategies and the
		discussions	impact of dilution

_		01	T , , , , 1
5	Structuring Term Sheets	Classroom	Integrating the
	Environmental factors surrounding term	discussions	valuation with term
	sheets, selected critical elements in venture	and	sheet
	term sheets.	explanation	
6	Document and Typical Investment	Classroom	Understanding
	Conditions	discussion	documents and critical
	Due diligence procedures.		pointers to due
			diligence
7	Exit Strategies for Multiple Stakeholders	Classroom	Understanding
	Consider liquidity events such as IPO,	discussion	strategies made to
	mergers,	and	negotiate and exit the
	later stage financing, including mezzanine	explanation	fund
	financing and buy-outs.	r	
8	Regulation of PE Funds	Classroom	Understanding PE
	SEBI Alternative Investment Funds (AIF)	discussion	funds regulation
	Regulations.	and	
		explanation	
9	Tax Aspect of PE Investment	Classroom	Overview of taxation
	Section 10(23FB) of Income Tax Act, 1961	discussion	aspects while choosing
	Section 10(47) of Income Tax Act, 1961	and	PE as an investment
	Income types, Securities Transaction Tax,	explanation	alternative
	Dividend Distribution Tax, STCG, LTCG,		
	Taxation of Non Residents.		
10	Private Equity Investments in Developing	Classroom	To know the trends of
	Markets	discussion	the PE funding in the
			developing economies
11	Private Equity, Corporate Governance and	Classroom	Importance of ethics
	Ethics	discussion	and value system
	Board members duty to shareholders,		
	composition and roles of the board of directors		
	in the private company.		

### **Text Book**

1	T Satyanarayan Chary, Venture Capital concepts & Applications
2	Vandana Pawar, Venture Capital Funding Global And Indian Experiences.
3	Stephen Bloomfield, Venture Capital Funding

### **Reference Book**

## Semester - III

# SYSTEM (CORE)

Semester	:	III-Core	
Title of the Subject / course	:	Database Management System & Data Warehousing	
Course Code	:		
Credits	:	4	Duration : 40

# Learning Objectives

1	To understand the introduction	on, Meaning and Definition of Database, Database			
1	Environment				
2	To understand the Data Models : The importance of data models, Basic building				
3	Understand applications of Database Management System(DBMS) & RDBMS				
4	To understand the Object-Relational Database Management System(ORDBMS)				
5	Overview of Structured Query Language and application DBMS to business				
Prei	Prerequisites if any Basic understanding of Database Management System				
Com	Will connect conceptual framework to Database				
Connections with Subjects in the		Management System, RDBMS, Data Models,			
curi	rent or Future courses	OODBM, SQL and its application to business.			

	Content	Activity	Learning outcomes
1	Introduction to Databases Introduction, Meaning and Definition of Database, Database Environment, Working of a Simple Centralized Database System, Tradition al File Systems vs. Modern Database Management Systems, Properties of Database, Types of Database Users, Advantages of using DBMS	Lecture	Understanding the basic DBMS concepts
2	Data Models: The importance of data models, Basic building blocks, Business rules, The evolution of data models Hierarchical, Network, Relational, Entity-Relationship model: entity and entity sets, relationship, constraints, E-R diagrams and issues.	Lecture & cases	Gaining an insight on various Data Models applied
3	Database Management System(DBMS) Basic concepts : data, information, metadata, definition of DBMS, Components, entities, attributes ,relationships, Data dependency Keys : Super key, Candidate key, Primary key, Alternate key, Foreign key Integrity Constraints: Entity Integrity, Referential Integrity ,DBMS threelevel( Logical, Conceptual, Physical) Advantages and disadvantages of DBMS, Database system environment and utilities	Lecture	Understand the concept of Primary Key and Foreign Key w.r.t DBMS Architecture

	Content	Activity	Learning outcomes
	Client/Server Architecture : two and three tier architecture		
4	Distributed Databases: Introduction to Distributed DBMS Concepts, Client-Server Model, Data Fragmentation, Replication, and Allocation Techniques for Distributed Database Design	Lecture and cases	Knowing about the Distributed Databases
5	Relational Database Management System (RDBMS): Definition, Meaning, and Introduction, Merits and demerits, Relational Database design: features of good relational database design, atomic Domain and Normalization (1NF, 2NF, 3NF, BCNF).	Lecture and cases	Understanding the concepts of RDBMS and Normalization Process
6	Object-Relational Database Management System(ORDBMS): Introduction, Basics of Object Oriented Design (OOD), Characteristics- Advantages-Object oriented development- Objects and Object classes-Object Oriented data Model, Object oriented databases, Object Relational Database Management Systems	Lecture & Cases	Understand the OOD w.r.t RDBMS and its advantages
7	Structured Query Language: SQL: Introduction, SQL, Multi table Queries, Nested Queries or Sub queries, Multiple Row Nested Queries, Data Manipulation Language, The Create Table Statement	Lecture & Cases	Application of SQL in DBMS
8	Security and integrity: Introduction, Security and Integrity Violations, Authorization, Granting of Privileges, Security Specification in SQL	Lecture & Cases	Gaining an insight on Database Security and User Rights
9	Datawarehousing, Multidimensional Data Models, Data Warehouse Architecture, ROLAP, MOLAP, HOLAP, OLAP and OLTP	Lecture & Cases	Understand the Concept of Data Warehousing
10	Data Mining, Data Preprocessing, Data Marts, Cluster Analysis, Decision Making.	Lecture & Cases	Understand the Concept of Data Mining and processing

Tex	Text books		
1	Rob, Coronel, "Database Systems", Seventh Edition, Cengage Learning.		
2	Database management system by Navate		
3	Database management by E.F Codd

Semester	:	III-Core			
Title of the Subject / course		Enterprise Management Systems (EMS)			
Course Code :					
Credits	:	4	Duration	:	40

Lea	Learning Objectives			
1	To understand the Enterprise Resource Planning (ERP) - Meaning and Concept of ERP, Functional view of business processes and how they are integrated using an ERP, Merits and Demerits of ERP			
2	To understand the Enterprise C	Content Management – Role of content management		
3	To understand the applications areas of ERP, in various industry verticals and business			
4	To understandEnterprise Portals – Concept of an enterprise portal			
5	To understand the Enterprise Application Integration- Challenges in integrating			
Pre	Prerequisites if any Basic understanding of operations, framework of Enterprise Resource Planning (ERP)			
	Will connect conceptual framework to the Enterprise			
Co	Connections with Subjects in Resource Planning (ERP) - Meaning and Concept of ERP			
the	the current or Future courses Functional view of business processes and how they are integrated using an ERP, Merits and Demerits of ERP			

S No	Content	Activity	Learning outcomes				
1	Enterprise Management Systems – the Components – what is an Enterprise and its dynamics – how does it work. What subsystems are required to make it responsive and successful? How does IT play a part? Understanding Business IT.	Lecture and Caselets	Understand the role of Enterprise Management Systems in Business				
2	Applications areas of an Enterprise viz. ERP, across various industry verticals and businesses such as BFSI, Retail, Telecom, Healthcare, across manufacturing and/or Marketing organizations, Government bodies etc	Lecture	Gaining an insight on Applications of EMS in various industry verticals				
3	Enterprise Content Management – role of content management – New Organization and Startup the challenges and Role of IT and systems Building Cashless and Process oriented organizations	Lecture	Gain an insight on role of content management, challenges w.r.t building cashless organizations				

S No	Content	Activity	Learning outcomes
4	Enterprise Portals – Concept of an enterprise portal, benefits to an organization, Technologies available for building such portals.	Lecture Caselets	Understand the concept of Enterprise Portal and related Technologies
5	Enterprise Application Integration- Challenges in integrating various enterprise applications. Modern technologies for application integration.	Lecture and Enterprise cases	Identifying and solving the challenges in integrating various enterprise applications
6	Application Areas of ERP in SCM, and CRM, Supply Chain Management(SCM) – Need for Supply chain integration, Application overview of supply chain solution, advanced SCM and ERP integration	Lecture & Cases	Understanding the applications of ERP in SCM and logistics Management
7	Case Studies and Presentations – Case study to cover full enterprise layer with SCM, CRM and ERP combined with E- enabled organisation	Group Discussion and Individual assignments	

Tex	Text books

Semester	:	III-Core	
Title of the Subject / course		Big Data and Business A	Analytics
Course Code :			
Credits	:	4	Duration : 40

# Learning Objectives

1	To understand the Introduction to Big Data and Business Analytics and its applications
2	To understand the Business Analytics Cycle Introduction, Analytical Tools & Methods
3	To understand Data Mining & decision Making concepts, Predictive Analysis, Forecasting Optimization, Simulation, and Business Metrics tc.
4	To understand the Data Driven Prediction Methods NLP, Regression, Correlation, Cluster Analysis, Artificial Neural Networks, BI Tools & Applications

Prerequisites if any	Basic understanding of operations, framework
•	Will connect conceptual framework to BigData and
the current or Future courses	business Analytics.

Sr. No.	Content	Activity	Learning outcomes
1	Introduction to Data Analytics Need for Business Intelligence Data Management, Data Visualization, Data Warehousing, ETL Data Processing Chain From Business Intelligence to Business Analytics	Lecture	Understand the basic concepts of Big Data and Business Analytics
2	Business Analytics Cycle Introduction, Analytical Tools & Methods, Integration Social Analytics, Operational Analytics Big Data Analytics, Hadoop, Informatics, Cognos etc. Business application of big data analytics	Lecture & cases	Gain an insight on analytical tools and methods
3	Data Mining & decision MakingPredictiveAnalysisForecastingOptimizationSimulationGamification.	Lecture	Understand the predictive analytics and forecasting method w.r.t business analytics
4	Business Metrics in Action Data science in Startups Basics of Problem- Solving Design Patterns in Statistical Computing Excel for Data Science.	Lecture and cases	Gaining an insight on Business metrics and data science in statistical computing

Sr. No.	Content	Activity	Learning outcomes	
5	Data Driven Prediction Methods NLP, Regression, Correlation, Cluster Analysis, Artificial Neural Networks, BI Tools & Applications.	Lecture and cases	Understand Statistical computing methods like NLP, regression and other BI tools	
6	Case Studies and presentations	Lecture & Cases		

Text books		
1	Big Data Big Analytics: Emerging Business Intelligence and Analytic Trends for Today's Businesses by Michael Minelli	
2	Big Data & Analytics by Chellappan and Acharya	
3	Big Data Analytics with R & Hadoop by Vignesh Prajapati	
4	Big Data Analytics Made Easy by Y Lakshmi Prasad	
5	Data Science for Business by Foster Provost & Tom Fowcett	

Refe	Reference books

Semester end	60%

Semester	:	III-Core			
Title of the Subject / course	oject / : Knowledge Management				
Course Code	:				
Credits	:	4	Duration	:	40

Learning Objectives			
1	To understand the introduction to Meaning of data, information, knowledge		
2	To Know the conceptual background and framework of KM		
3	Understand the KM Foundations and Solutions KM Foundations		
4	To know the Organizational Structure, Culture, Communities and KM practices, Information Technology as an enabler.		
Prer	requisites if any	Basic understanding of Knowledge Management	
Connections with Subjects in the current or Future courses		Will connect conceptual framework to KM Infrastructure, Organizational Structure, Organizational Culture, Communities of Practice, Information Technology enabler	

	Content	Activity	Learning outcomes
1	Introduction to Knowledge Meaning ofdata, information, knowledge and expertise Meaning of epistemology, Types of Knowledge - Subjective & Objectiveviews of knowledge, procedural Vs. Declarative, tacit Vs. Explicit, generals. Specific. Types of expertise – associational, theoretical Characteristics of knowledge – explicitness, teach ability, specificity Reservoirs of knowledge Locations and Intellectual Capital	Lecture	Understanding the KM concepts, types of knowledge and characteristics of knowledge
2	Introduction to Knowledge Management (KM) Meaning of KM, Relevance of KM in today's dynamic complex environment Forces Driving KM Organizational issues in KM Systems & their role Emergent KM practices Factors influencing KM Future of Knowledge Management	Lecture & cases	Basic concepts of knowledge management can be gained
3	KMFoundationsandSolutionsKMFoundations:Infrastructure,Mechanisms,TechnologiesKMSolutionsandcomponents:Processes (Discovery,Capture, Sharing,andApplications)KnowledgeUtilizationProcessVilization	Lecture	Km infrastructure, solutions and various components related to KM foundation can also be well understood and applied

	Content	Activity	Learning outcomes
4	KM Infrastructure Organizational Structure Organizational Culture Communities of Practice Information Technology enabler and Infrastructure Common Knowledge	Lecture and cases	Understanding the KM Structure, Organization Culture and Role of IT in facilitating the KM implementation.
5	Organizational Impact of KM Dimensions of KM Impact – People, Processes, Products & Organizational Performance Factors influencing impact – universalistic & contingency view Leadership and Assessment of KM Leadership , KM Assessment of Knowledge Management Solutions, Impacts Knowledge Workers Barriers to KM and IT Dissemination	Lecture and cases	Gain an Insight on KM dimensions, barriers and Performance factors w.r.tKM
6	Case studies and Application Exercises on KM processes	Lecture & Cases	

Tex	Text books		
1	Knowledge Management in Organizations by Donald Hislop, Oxford 2 <sup>nd</sup> Edition.		
2	Knowledge Management by Ganesh Natarajan and Sandhya Shekhar		
3	Knowledge Management Systems Theory and Practice by Stuart Barnes (Ed.), Thomson Learning.		
4	Knowledge Management, Shelda Debowski, Wiley India Edition.		
5	Knowledge Management in Theory and Practice, Kimiz Dalkir, Elsevier, Butterworth Hinemann.

Assessment		
Internal	40%	
Semester end 60%		

Semester	:	III-Core			
Title of the Subject / course	:	Software Engineering			
Course Code	:				
Credits	:	4	Duration	:	40

Lea	Learning Objectives					
1	To understand the in details software development process with issues /challenges In analysis, design, implementation ,maintenance etc.					
2	Ability to analyze, design, verify, validate, implement, apply and maintain software systems.					
3	To help students to develop skills that will enable to construct high quality software and reliability.					
Pre	Prerequisites if any         Basic understanding of software Engineering					
	nnections with Subjects in the crent or Future courses	Will connect conceptual framework to software engineering				

	Content	Activity	Learning outcomes
1	Exposure to software development process – Software Lifecycles such as Waterfall, Spiral, Prototyping, Rational Unified Process, Agile Methodologies – Various phases in each lifecycle model, and the pros and cons of these approaches to software development	Lecture	Understanding the software lifecycles and methodologies
2	<ul> <li>Analysis and Design of Information systems</li> <li>Assessing the Feasibility of a system</li> <li>Gathering detailed requirement</li> <li>Use of Structured methods such as Data flow, Entity Relationship diagrams etc –</li> <li>Use of Object Analysis and Design</li> <li>Use Cases and visualization of the IT based solution</li> <li>Design of Inputs , Outputs and other interfaces</li> </ul>	Lecture & cases	Gain an insight on analysis and designing of information systems Understand the use cases and e-r diagrams for process mapping
3	Documenting Software requirements - various documents used at different stages of software development process – User Requirement Specifications	Lecture	Understand the SRS designing and various stages involved in software development
4	Software Estimation – challenges in Estimation of software – methods of software estimation such as Line of Code, Function Point, COCOMO, COCOMO II, Use Case Point Method etc – Estimating a Coding Task versus non-coding activities such as Documentation etc	Lecture and cases	Gain an insight on cost estimation techniques for software development

	Content	Activity	Learning outcomes
5	Software Quality and Testing – Need for testing, Quality assurance of software at each phase in the lifecycle, Various types of tests such as Black box v/s White box, Functional test, code reviews, Stress tests, load tests etc Use of Use Cases for functional testing, Preparing Test Data and Test Cases, overview of Automated methods for testing	Lecture and cases	Understand the quality assurance and system testing w.r.t to software development. Learn to design the test case, apply test case and work on CASE tools
6	Review of Student Presentations on exercise which requires them to analyse a business process, requirements, documentation and maintenance, Analysis and Conceptual design of the system, estimation of the software size	Individual Assignment	
7	Case Studies and Presentations	Group Discussions and Workshops

Assessment		
Internal	40%	
Semester end	60%	

Semester	:	III Elective			
Title of the Subject / course		Information System	Security and Au	lit	
Course Code					
Credits	••	4	Duration	:	40

Lea	Learning Objectives				
1	To understand the Need for Information Security and Audit in an organization				
1	Identifying Information Asset	Identifying Information Assets in an organization			
2	To understand the framework of Concept of Systems Audit				
3	Understand the System & Infrastructure Maintenance				
4	To Know the insights of Security Administration & Operations'				
5	To understand the Global & Indian perspective				
Prerequisites if any		Basic understanding of Information System Security and			
		Audit			
Con	nections with Subjects in	Will connect conceptual framework to significance, Need			
the e	current or Future courses	for Information Security and Audit in an organization			

Sr. No.	Content	Activity	Learning outcomes
1	The latest opportunities in Information Systems Audit Forensic accounting, Fraud prevention, Security in Business Information, Business Analytics, E- Commerce, Cloud computing, Big Data, Data Analytics, Social Media, etc.	Lecture	Understand the latest Opportunities in IT Audit
2	Need for establishing <b>Control Framework for</b> <b>information asset</b> , Understanding Information Risk Management and Control, Information Security(CIA) Management (Tools and techniques) forSafeguarding Business Information and related assets. General control – Preventive, Detective and Corrective Controls, Technological Controls - Application controls, Database controls and network controls, Administrative and Operational Controls – Physical, Environmental and Logical Controls. Importance of information security and audit	Lecture & cases	Understand the need for Control Framework Gain an insight on Business Information and related assets
3	<b>Concept of Information Systems and Security</b> <b>Audit Practices</b> Information System Audit - Planning, Conducting an audit, Reporting Audit findings, Audit Follow up. Information System Audit Function – Scope of Audit, Cycle Time, Audit Time and Cost effectiveness, Competency of an Auditor, Role responsibility and accountability of an IS Auditor, Internal and External Systems Auditor.	Lecture	Understand the IS Audit Practices

Sr. No.	Content	Activity	Learning outcomes
4	<b>Protection of Information / Application System</b> Review of business information / application flows in the organization, inputs, process, validation and output, modifications, authorizations, information (data) and application maintenance, disposal, etc. Review of database and data management systems Review of Logical access, Physical and Environmental controls that supports business information / application system.	Lecture and cases	Information Protection and Application Systems can be learnt and applied
5	ProtectionofInformation/ ApplicationInfrastructureNetwork controls, Vulnerability Assessment and Penetration Testing, etc.ReviewofLogicalaccess,PhysicalandEnvironmentalcontrolsthatsupportsbusinessinformation / applicationinfrastructure.	Lecture and cases	Information Protection and Application Infrastructure w.r.t networks can be learnt and applied
6	<ul> <li>Business Continuity Management ( A Corrective Control as part of Contingency plan for Business IT)</li> <li>Process - Dependencies – External and Internal, Risk, Actions to address Risk, Performance Measurement, Improvement in resilience</li> <li>BC Infrastructure – Cold, Warm, Hot and Reciprocal Sites, Safety and Security of Business infrastructure, System and People</li> <li>Practice – BCM Team, Roles, responsibilities and authorities, Competencies, Awareness, Plans for Business Continuity and Disaster Recovery, Exercise and Testing, Management Reviews</li> </ul>	Lecture & Cases	Business Continuity planning and implementation can be learnt
7	Audit Tools and Certifications Overview of COBIT 5 and its use by IS Auditors Overview of ISMS ISO 27001:2013 Overview of BCMS ISO 22301:2012 Certified Information System Auditor (CISA) Certified Information Security Manager (CISM) Certified In Governance of Enterprise IT (CGEIT) Certified in Risk & Information System Control (CRISC) Certified Information System Security Professional (CISSP)		Understand Auditing Tools, Career Option as IS Auditor and related Certifications
8	Case Studies and Presentations

# Semester - III

# **OPERATIONS (CORE)**

Semester	:	III Core			
Title of the Subject / course		Supply Chain Manag	gement		
Course Code	:				
Credits	:	4	Duration	:	40

Lear	rning Objectives
1	Familiarize with the basic concepts of Logistics Management in relation to Inbound Logistics, Process Logistics, and Outbound Logistics phases of business.
2	To explore the major elements of supply chain and expose to leading edge thinking on supply chain strategy, Designing supply chain, customer satisfaction; inventory management; risk management, alliances, issues and challenges, performance measurement.
Prer	requisites if any

i i el equisites il uny	
<b>Connections with Subjects in</b>	International Logistics
the current or Future courses	

S No	Content	Activity	Learning outcomes
1	Understanding the supply chain What is a supply chain? Decision phases in a supply chain. Evolution of SCM, SCM integration, Linkages and Decisions in SCM. Difference of Supply Chains in Product (Mfg.) Industry and Service-based Industry. Supply Chain and Demand chain, Value creation. Delivery and Value addition through supply chain. Process view of a supply chain. The importance of supply chain flows. Competitive Supply Chain Strategies. Achieving strategic fit.	Lecture and discussion.	Understanding of Supply chain
2	Logistics Competitive advantage and three C, Competitive advantage through logistics. Logistics-A system concept, Customer value chain, Logistics functions. Logistics Mission, Objectives, Goals, Decisions. Reverse Logistics.	Lecture and discussion.	Understanding of Logistics concept
3	Warehousing and Distribution Role of warehouse in Logistics,	Lecture and discussion.	Understanding of Warehousing function

S			
No	Content	Activity	Learning outcomes
	Warehousing functions, Types of		and distribution channel
	warehouses		
	Warehouse site selection, Layout design,		
	Warehouse Decision model.		
	Warehouse automation, strategies,		
	performance, costing.		
	Distribution, Role, Importance, Levels,		
	Channels, Structure, Functions.		
	Channel partners, functions, Tasks, Flows,		
	Strategy.		
	Free trade zones and special economic		
	zones.		
	Order Processing and Logistics		
	Information system		
	Order Preparation, Transmittal, Order		Understanding of
4	entry, Order filling, Order status reporting	Lecture and	Warehouse process and

	Pre- transaction, Transaction, Post-		
	transaction elements, Service attributes		
	Value added customer service, Importance		
	of Logistics Customer service		
	Sales and Service relationship, Cost and		
	Service relationship.		Understanding of
_	Objective, Levels, Parameters of	Lecture and	customer service and
5	performance measures- Cycle time, Fill	discussion.	performance
	Rate.		measurement
	Inventory Turnover, On-time Shipping and		
	Delivery, Perfect Order, Stock out.		
	Transportation measurements, Customer		
	perception measure, Audit.		
	Gap Analysis Concept of Banchmarking		
	Concept of Benchmarking Benchmarking for Best Practices		
	SCOR and DCOR		
	Transportation		
	Infrastructure, road, rail, air water,		
	pipeline. Freight Management, Freight		
	cost.		
6	Transportation Network Route planning,	Lecture and	Understanding of
	Containerization, Packing.	discussion.	Transportation modes
	Effective / Cost Optimizing Distribution		
	strategies- Direct shipment, Cross-docking,		
	Milk run, transshipment.		
L			1

S			
No	Content	Activity	Learning outcomes
Designing Logistics and distribution network in a supply chain Applications to Online Sales Network Design in the SC the role of distribution in the supply chain. Importance of Smart Transportation7Distribution Center Concept , Modern DC's , Robotics Usage for pick and pack Factors influencing distribution network design.Supply Chain Integration Design option for a distribution network. Distribution network in practice.		Lecture and discussion.	Understanding various distribution networks
8	The value of Information Bullwhip effect. Effective forecasts. Information for the coordination of systems. Collaborative Planning Forecasting Replenishment (CPRF) concept. Locating desired products. Lead time reduction. Information and supply chain trade-off. Designing the supply chain for conflicting goals. Inventory Management and Risk pooling, Logistics Information system Function, OMS, WMS, TMS. Internal Operations – Input, Database management, Output	Lecture and discussion.	Understanding importance of information in supply chain.
9	Strategic Alliances A framework for strategic alliances. Third party / fourth party logistics. What are 3PL/4PL, Advantages and disadvantages of 3PL, 3PL issues and requirements? Retailer supplier partnership. Types of RSP, Requirements of RSP Inventory ownership in RSP, Issues and steps in RSP implementation Advantages and disadvantages of RSP. Distribution Integration Types of and issues in Distribution integration. Customer Value	Lecture and discussion.	Understanding of various outsourcing activities and RSP
10	<b>E-procurement and outsourcing</b> Outsourcing benefits and risks. A framework for Buy/Make decisions E-procurement. A framework of E-	Lecture and discussion.	Understanding procurement through Internet and impact.

S No	Content	Activity	Learning outcomes
	procurement. Impact of Internet on supply chain strategies (E-business).		
11	Designing Global Supply Chain Networks Global market / Technological/ Cost/ Political and Economic Forces. Risks and advantages of international supply chain. International versus Regional products. Local autonomy versus central control. Regional differences in Logistics- Cultural differences/ infrastructure/ performance expectation and evaluation Information systems availability, human resources. Global business logistics.	Lecture and discussion.	Understanding various international issues and challenges
12	Performance Measurement and Controls in Supply Chain Management Measurement of a Robust Supply Chain. Cost / Quality / Service Measurement Introduction and concept of Benchmarking. Gap Analysis. Key actions in benchmarking for best practices. Overview of Supply Chain Operations Reference (SCOR) Modeling. Balance scorecard for SCM. Lean Manufacturing and Mass Customisation	Lecture and discussion.	Understanding various performance measurements tools in supply chain.
13	Ethical issues in SCM Supply chain vulnerability. Conformance to applicable laws such as Contract and commercial laws, Trade regulation, government procurement regulations, patents Copyrights, trademark laws, transportation and logistics laws and regulations Environmental laws. International practices. Confidentiality and proprietary information.	Lecture and discussion.	Understanding various ethics, Rules and regulations in supply chain.
14	Current Trends in Supply Chain Goldratt Supply Chains Sustainable Supply Chain Resilient supply chains Green Supply chain Lean supply chain	Lecture and discussion.	Understanding recent trends in supply chain.

Semester	:	III Core			
Title of the Subject / course		<b>Operations Analytics</b>			
Course Code	:				
Credits	••	4	Duration	:	40

Lear	ning Objectives				
1	To understand basic aspects of analytics and evaluation				
2	To learn various analytical techniques applied in complex real life situations				
3	To be able to scale up an academic model to workable practical model by carrying the process of analytical framework.				
Prer	Prerequisites if any Operations Management, Operations Research, Statistics for Management,				
Connections with Subjects in the current or Future		Supply Chain Management, MRPC, Materials Management.			

courses

Sr. No.	Content	Activity	Learning outcomes
1	Gaining data insights and Predictive Analytics Introduction to analytics, Demand analytics-qualitative forecasting	Lecture, examples on excel, cases	Understand Forecasting and predictions
2	Demand analytics –quantitative forecasting ,Moving average, exponential smoothing, trend, regression adjusted with seasonality, double exponential smoothing, optimum values of period of MA & smoothing constant	Lecture, examples on spread sheets, cases	Understand and use various techniques for demand forecasting
3	Measures of accuracy in forecasting in terms of MAD,MSE,MAPE & tracking signal	Lecture, examples on spread sheets, cases	To evaluate the appropriateness of the projective technique
4	Service analytics in waiting line, single & multiserver, use of simulation and customer service efficiency, cost optimization	Lecture, examples on spread sheets, cases	To understand service efficiency analysis
5	Service analytics in Retail, stocking policy and impact of stock-out, use of simulation, service efficiency,& cost optimization	Lecture, examples on spread sheets, cases	To know management of service operations in Retail
6	Supply Chain Analytics: Supply Chain Metrics, Decision areas in SCM Procurement, Manufacturing, Distribution, Logistic s, Global	Lecture, examples on spread sheets, cases	To identify the supply chain related measurement
7	Supply chain analytics, Risk & performance indices wrt cost, capacity,	Lecture, examples on	To understand and list the risk and

Sr. No.	Content	Activity	Learning outcomes
	quality, logistics & distribution etc	spread sheets, cases	performance of supply chain
8	Types of Reports: Summary Reporting, Detailed, Functional, Multi-view, Drill Down, Utility View, Process View	Lecture, examples on spread sheets, cases	To know the reporting of the analytics
9	Performance Metrics: Inventory, Fulfillment, Alerts, and Flagging etc. Dash Board Designing, Balanced Scorecard: Kaplan and Norton Framework, Strategy Map, Scorecard Design	Lecture, examples on spread sheets, cases	To understand performance metrics in various cases

## **OPERATIONS (ELECTIVE)**

Semester	:	III Electives			
Title of the Subject / course	:	World Class Manufa	cturing		
Course Code	:				
Credits	:	4	Duration	:	40

#### **Learning Objectives** To meet global markets which are more turbulent, dynamic and complex. 1 2 To understand the relevance of World Class Performance in competitive framework 3 To understand global markets relationship to world class performance 4 To build the framework for world class manufacturing To understand the state Indian manufacturing in relation to world class standards and 5 performance issues Prerequisites if any Operations Management, Connections with Subjects in the TQM. current or Future courses

Sr. No	Content	Activity	Learning outcomes
1	World class manufacturing and information age. Sub Topics. Emergency of information age. Completing in information age business challenges operating environment of information age Indian global completeness and manufacturing excellent Time based competition, managing knowledge Problems in manufacturing industry co- ordination control Fragmented information infrastructure Understanding, Attribute of world class status.	Lecture Lecture & case studies Discussion in the class from students	
2	Gaining competitive advantage through world class manufacturing. Varies concepts of world class manufacturing What is world class manufacturing Various models of WCM, Various models of WCM or approaches to WCM. Practices of WCM Meaning of WCM supplier, customer	Lecture applications case studies.	

Sr. No	Content	Activity	Learning outcomes
	manufacturer quality in WCM.		
3	Systems & Tools for World Class manufacturing Overview of systems & tools	Case studies	
	Information management tools Material processing and handling tools.	Discussion from group	
	Product, Process design tools Flexible manufacturing systems rapid prototyping Lean Production tools.	Application in industries	
	An assessment Manufacturing systems		
4	World class manufacturing- The Indian scenario. Competitiveness of Indian manufacturing.	Case studies	
	Manufacturing performance & Planned strategies of Indian manufacturing. Manufacturing readiness of Indian firms	Discussion from group	
	Manufacturing objectives and strategy Use of Management tools and technologies classification by breadth of Information Technology. Infrastructure and depth of manufacturing	Application in industries	
	applications. Strategy for world class status, and information technology. Is India ready for world class manufacturing.		
5	Leading India towards world class manufacturing Business strategy & global competitiveness.		
	Manufacturing strategies for information age.	Case studies	
	Developing strategic thinking as world class as STRATEGIC PERSPECTIVE. Issues in strategic planning	Discussion from group	
	Barriers to using information technology strategically. World Class Strategic planning and Implementation	Application in industries	
	Need for performance measurement Various methods of measurement Importance of Human diversions in world class- morale and team building.		
6.	Case studies / Presentations Based on the above topics by students.	Toyota Production System Case	

Te	xt books			
1	World class manufacturing A strategic perspective	B.S Sahay, K.B.C Saxena, Ashish Kumar.

Se	mester end 60%			

Semester	:	III Electives			
Title of the Subject / course	:	Business Process Re-engineering And Benchmarking			
Course Code	:				
Credits	••	4	Duration	:	40

## Learning Objectives

1	To understand business process reengineering
2	To know the tools and techniques for business process reengineering
3	To understand the importance of Benchmarking the business processes
4	Role of leadership, technology in Business process reengineering

Prerequisites if any	
Connections with Subjects in the	Strategic Operations Management
current or Future courses	Strategic Operations Management

Sr. No.	Content	Activity	Learning outcomes
1	Business Process Fundamentals Definition of Business Processes Business processes and functional processes Importance of focusing on business processes	Lecture and cases	Understand and know basics of Business process
2	Understanding Business Processes Customer focused analysis of business processes Identifying value adding activities	Lecture and Cases	Understand customer and value addition in Business process
3	Visualizing Business Processes Introduction to flowcharting Types of flowcharts – block diagrams, functional flowchart with time-lines Performance Measurement systems Process characteristics	Exercises for flowcharts	Know logical flows and process component
4	Types of re-engineering Process Improvement with cost reductions Achieving best-in-class with competitive focus Radical change by re-writing the rules	Lecture and cases	Know types
5	Organizing for Process Improvements Setting up teams, choosing team leaders Training teams for process improvements	Lecture, Case, and discussion	To understand implementation process
6	Benchmarking Origins of benchmarking – Xerox approach Definition of benchmarking	Case	To know benchmarking and relevance

Sr. No.	Content	Activity	Learning outcomes
7	Internal benchmarking Benchmarking against the best in the unit Benchmarking against the best in the group	Case, lecture and presentation	To know benchmarking and relevance
8	External benchmarking Benchmarking the best in the industry Benchmarking the best in any industry	Lecture	To understand status in bigger perspective
9	Re-engineering and Information technology Flowcharting information flows Using IT to speed up processes	Lecture and case	To understand integration of technology
10	Organizing for re-engineering Obtaining top management commitment Creating cross-functional teams Supporting teams with resources	Case	To understand role of top management
11	Re-engineering – focus phase Identification of key processes Identification of key people and getting their support Identification of benefits possible and resources required	Lecture Presentation, case	To know how to get the team for BPR and Benchmarking
12	Re-engineering – design phase Selection of processes to be re- engineered Setting time frames, targets	Lecture and case	To understand phases and identification of processes
13	Re-engineering – implementation phase Communicating the benefits for the organization Communicating the benefits for the individuals Monitoring progress Consolidating the gains	Lecture and cases	To identify the benefits and results of BPR and Benchmarking

### Text books

1	Re-engineering the Corporation Michael Hammer & James Champy
2	Beyond Re-engineering - Michael Hammer

## **Reference books**

1	Business process Bench marking	Robert C. Camp
2	Process Re-engineering	Lon Roberts
3	Business process Orientation	Kevin Mc Cormack William C Johnson

Semester	:	III Electives			
Title of the Subject / course	:	Technology Manager	nent & Manufac	turi	ng strategy
Course Code	:				
Credits	••	4	Duration	:	40

Lea	rning Objectives		
1	How technology can be used in a corporate to gain strategic advantage		
2	Contribution of Technology in New product development		
3	Use of technology in Pre-	oduct design	
4	Application of Technology in a manufacturing company		
5	How to compete with better Manufacturing strategy		
6 Application of JIT, TOC and Customization as tools to compete in a manufacturing organisation			
Pre	requisites if any	operations management	
Connections with Subjects in the current or Future		World class manufacturing, TQM, Strategic Operations Management Project Management	

in the current or Future courses	Management, Project Management
	Wanagement, 110jeet Wanagement

Sr. No.	Content	Activity	Learning outcomes
1	Corporate Strategy and Manufacturing. Pitfalls of functional based strategies. Strategic Integration of manufacturing and marketing. Concept of Order Winners and Qualifiers.	Lecture and Discussion	Alignment of functional strategies with corporate strategy and importance of strategy in customer orientation
2	Technology Management and New Product development (NPD). Corporate Strategy and New Product Development. Organization for NPD.	Lecture and assignment to identify new products in the market and their strategic importance to the respective organisation	Role of Technology in NPD. Strategic importance of NPD
3	Technology management and Idea Generation for NPD. Discovering customer needs. Sources for new product ideas. Market assessment and value analysis. Evaluation of new product ideas.	Lecture and Video on NPD idea generation and assignment on VA and idea generation	Process of NPD. Role of VA in NPD
4	Technology management and NPD project selection. Assessment of product concept. Assessment of competitors. Concept testing. Financial analysis of project.	Lecture and Case study on Financial analysis of project	Criteria for project selection Product concept testing process Project analysis

Sr. No.	Content	Activity	Learning outcomes
5	Technology Management and Product design. Integrated product design. Design for quality using quality function deployment. Design for reliability. Design for manufacturability.	Lecture and Assignment on QFD for different products	How QFD is used for designing new product. Product designing process Importance of designing for reliability and manufacturability
6	Order Winners and Qualifiers. Dimensions of order-winners and qualifiers- manufacturing specific, not manufacturing related. Determining order winners and qualifiers.	Lecture and discussion on distinguishing order winning and order qualifying parameters	Understanding that Order winners and qualifiers are both market-specific and time-specific. They work in different combinations in different ways on different markets and with different customers
7	Process Choice. Business implication of process choice- project, jobbing, Line batch, continuous. Hybrid processes- batch related, Line related. Technology strategy- flexibility, push vs pull, technological opportunities.	Lecture and video of different types of processes and their application	Applications of different types of processes and their advantages and disadvantages Technology strategy in relation to process selection
8	Product profiling and manufacturing. Manufacturing and product life cycle stages. Manufacturing for multiple markets. Manufacturing and incremental marketing changes.	Lecture and discussion on PLC in relation to manufacturing strategy	Relation between PLC and Manufacturing strategy
9	Focused manufacturing and group technology. Principles and concepts. Methodology. Manufacturing infrastructure. Organizational structure- specialists, generalists. Operational control- quality, inventory, manufacturing.	Lecture and discussion	Difference focused manufacturing and group technology Importance of manufacturing infrastructure Significance of Quality Control and inventory control in manufacturing
10	Make or buy. Core elements of the business and strategic considerations. Span of process and product technology. Product volumes, costs. Investment decisions.	Lecture and solving Make or buy problems	Outsourcing as strategic decision Understanding difference between process and product technology and their application in manufacturing strategy
11	Basics of world class manufacturing. General principles. Design principles. Human resource principles.	Lecture and video	Strategic significance of world class manufacturing

Understanding the role of
Time as competitive

Learning	Objectives
Louing	o Sjeen es

1	Develop knowledge about international logistics and understand role of various players like logistics firms, Companies, governments, physical flow of goods, physical facilities and more importantly sources of information for international logistics.

Prerequisites if any	Logistics and Supply chain
Connections with Subjects in the	
current or Future courses	

	Content	Activity	Learning outcomes
1	Introduction International Trade Volume. Historical Development of International Logistics International Logistics Definition and Components. The Economic Importance of International Logistics.	Lecture and discussion.	Understanding of International logistics
2	Methods of Entry into Foreign Markets. Indirect Exporting, Active Exporting. Production Abroad-Contract, Licensing, Franchising, Joint Venture, Subsidiary. Foreign Trade Zones, Maquiladoras, Foreign Corrupt Practices Act.	Lecture and discussion.	Understanding of Exports
3	International Contracts International Sales Contracts and CISG. Agency versus Distribution Legal Issues. Elements of an Agency or Distributor Contract. Termination and Arbitration.	Lecture and discussion.	Understanding of International contracts
4	<b>Terms of Trade or Incoterms</b> Understanding Incoterms,Incoterm Strategy,Ex-Works,Free Carrier. FAS,FOB,CFR,CIF,CPT,CIP,DES,DEQ,DAF, DDU,DDP. Electronic Data Interchange.	Lecture and discussion.	Understanding of various Incoterms
5	<b>Terms of Payment</b> Introduction, Alternative Terms of Payment, Cash in Advance. Open Account, Letter of Credit, Documentary Collection. Purchasing Cards-Procurement Cards, Tradecard. Bank Guarantees.	Lecture and discussion.	Understanding of various payment methods

	Content	Activity	Learning outcomes
	Currency of Payment - (Managing		<u> </u>
6	<b>Transaction Risks</b> ) Sales Contracts' Currency of Quote, the System of Currency Exchange Rates. Theories of Exchange Rate Determinations, Exchange Rate Forecasting. Managing Transaction Exposure, International Banking Institutions.	Lecture and discussion.	Understanding of importance of currency
7	International Commercial DocumentsInvoices,ExportDocuments,ImportDocuments.TransportationDocuments,ElectronicDataInterchange.Documents,ElectronicData	Lecture and discussion.	Understanding of various international commercial documents
8	InternationalInsurance-InsuranceGlossary.Perils of the Sea,Perils Associated with AirShipments. Insurable Interest.Risk Management,Marine Insurance Policies,Coverage under a Marine Cargo.Elements of an Airfreight Policy.Lloyd's-Principles,Commercial Credit Insurance.	Lecture and discussion.	Understanding of Importance of Insurance.
9	<b>International Ocean Transportation</b> Types of Service, Size of vessels,Types of Vessels. Flag,Conferences,Liability Conventions, Non- Vessel-Operating Common Carriers.	Lecture and discussion.	Understanding of Ocean Transportation
10	<b>International Air Transportation</b> Types of Aircrafts, International Regulations.	Lecture and discussion.	Understanding of Air transportation
11	International Land and Multi-Modal Transportation Truck Transportation, Rail Transportation. Intermodal Transportation. Freight Forwarders, Project Cargo, Alternative Means of Transportation.	Lecture and discussion.	Understanding of multimodal Transportation
12	Packaging for Export Introduction. Packaging Objectives,Ocean Cargo.Air Transport. Road and Rail Transport, Security. Hazardous Cargo, Refrigerated Goods. Domestic Packaging Issues.	Lecture and discussion.	Understanding of Packing used in Import-Export
13	Customs Clearance Duty,Non-Tariff Barriers.Customs Clearing Process. Foreign Trade Zones.	Lecture and discussion.	Understanding of custom clearance process
14	International Logistics Infrastructure Transportation Infrastructure,Communication Infrastructure,Utilities Infrastructure.	Lecture and discussion.	Understanding of Logistics infrastructure

## Programme -Masters in Management StudiesSemester -III

## MARKETING (CORE)

Semester	:	III-Core			
Title of the Subject / course		Sales Management			
Course Code					
Credits	:	4	Duration	:	40

## **Learning Objectives**

- 1. To understand function of sales and its importance
- 2. To comprehend the art of managing the sales force
- 3. To motivate and manage sales force effectively
- 4. To develop critical thinking skills and situational leaderships
- 5. To learn the art of solving problems related to sales process on the field

Prerequisites if any	
<b>Connections with Subjects</b>	
in the current or Future	
courses	

No	Content	Activity*	Learning Outcomes
1	Introduction to sales organisation and types of sales force. Importance of sales management in any business organisation.	Lecture and discussion	Familiarising the student with the sales management function
2	Sales Organisation Structures, both B2B, B2C	Lecture/ Case Study	Deeper understanding about sales organisations across sectors.
3	Selling skills; Negotiation skills for services sales as against physical good sales, Sales dyads, Decision Making Units (DMUs),	Role play / observation and debriefing by faculty bringing conceptual clarity.	The students will develop an appreciation of negotiations & sales of services and physical goods
4	Sales process – sales approach, demonstration & closure, Personal selling, Applications of AIDA Model in sales.	Lecture And role play, debriefing by faculty bringing conceptual clarity.	Familiarising the students with techniques of sales process
5	Territory and time management, route planning, scheduling customer visits. Manpower planning- Recruitment, Selection, Training and development of sales personnel.	Lecture/ Role Play, debriefing by faculty bringing conceptual clarity.	Identify right attitude and skills for sales force. Developing an understanding of Territory Management.
6	Planning & forecasting techniques such as Moving	Lecture and discussion	Learn tools & techniques to set sales targets.

No	Content	Activity*	Learning Outcomes
	Averages, Trend Analysis etc. and target setting (sales budget and quota setting), using software support or Excel.	with use of templates, Also supported by guest faculty from Industry	
7	Sales Administration -Devising sales compensation, incentives, fixed and variable components of compensation, Non –monetary incentives. Performance evaluation of salesmen, setting standards of performance, recording actual performance, evaluation and managing sales meetings	Lecture/ Case Study / Role play	The student will learn how to motivated sales team and how compensation is linked to sales force performance and retention. To develop an understanding of the Art of positive evaluation
8	Sales force management during different phases which includes motivation during bad times (positive reinforcement), planning sales contests.	Lecture/ Case Study / referrals to research papers.	Developing skills to effectively manage sales force.
9	Field sales control - Sales reporting system which includes weekly, monthly, quarterly reports and interpretation of the data for future action plans, sales analysis and marketing cost analysis, sales audit, managing outstanding.	Lecture / Discussion/ Field trip	Understanding the relationships between the present sales & future plans of the organisation as well as an appreciation of costs.
10	Importance of Distribution and Logistics Management in relation to Sales Management, Understanding lead time and delivery schedule etc.	Lecture and Discussion	Learning to calculate delivery schedules.

## Learning objectives:

- 1 To develop an understanding of the rural economy of India
- 2 To develop a marketing program for rural consumers

## Prerequisites, if any

Knowledge of Specific Skills	MS Excel
Software Platforms	SPSS, Tableau, SAS, R ( at least one or similar)
Expertise required	The institute would need the services of industry experts as they would have access to database.

No	Contents	Activity ( only a guideline and not exhaustive)	Learning Outcome
	Unit I (30% weightage)		
1	Pricing, Breakeven and Margin Analysis, Demand Estimates, Marketing Budget and Marketing Performance Measure, Marketing Metrics and its application	Case study/Projects	The students learn and understands how to work out pricing, breakeven analysis, and framing of marketing budgets.
2	Financial Implications of various Marketing Strategies	Problems	To understand the financial implications of various marketing strategies through examples.
3	Cross Tabulation, Chi square Test, T Test, ANOVA (F Test), Simple and Multiple Regression	Recap	Recap for students who are assumed to be already familiar with these techniques.
4	Financial Feasibility analysis using NPV method, Customer Life time Value ( CLTV)	Case Study/real time projects	To analyse the financial feasibility of a project. The students will be able to calculate the CLTV measure based on specific inputs.

No	Contents	Activity ( only a guideline and not exhaustive)	Learning Outcome
	Unit II (40% weightage)		
5	Descriptive Analytics a. Geographical Mapping. b. Data Exploration. c. Market Basket Analysis	Case Study/real time projects	To understand how external data sources are used on top of internal data sources to derive better insights. The students will learn how data exploration is used in real world problem solving. The students will be able to understand the application of Market Basket Analysis from the analytics view point.
6	Forecast Analysis a.Moving Averages b.Time Series Forecasting Using Linear Regression	Case Study/real time problem solving	To understand moving averages method and apply with the purpose of forecasting.
7	Predictive Analytics Model for Marketing a.Clustering models (segments) b.Propensity models (predictions)	Case Study, Industry data	The student will understand and apply specific statistical and regression analysis methods to identify new trends and patterns, uncover relationships, create forecasts, predict likelihoods, and test predictive hypotheses. Understand clustering models, product based and brand based clustering. Understanding propensity model.
8	Social Media Marketing Analytics a. Data mining methods b. Analyses for websites, search engine results, and social media, e.g., Twitter, Facebook, and blogs. (Audience size, Reach & Engagement, Traffic, Community responsiveness)	Case Study, Problems/As per requirement	Understanding of the Complete dynamics of analytics in the digital technology and social media landscape. Learning the business/economic aspects of social media analytics and its application in the real world marketing scenarios.
9	Digital Analytics/ Google Analytics a. App usage , App revenue, retention, churn analysis b. Mobile Analytics (Example- Amazon Mobile Analytics)	Case Study, Problems/As per requirement	Student will learn to understand and control his on line campaign spend and performance. Student will learn how to track numbers and sources of mobile app customer acquisition, retention, referrals.

No	Contents	Activity ( only a guideline and not exhaustive)	Learning Outcome		
	Unit III ( 30% weightage)				
10	Conjoint Analysis	SPSS/As per requirement	Students will learn the need for conjoint analysis and their applications in designing of a new product or service.		
11	Factor Analysis	SPSS/As per requirement	Students will understand the concept of factor analysis, different methods of factor analysis and the interpretation of factor solutions with emphasis on exploratory factor analysis , confirmatory factor analysis and structural equation modelling		
12	Cluster Analysis	SPSS/As per requirement	Students will understand the need for cluster analysis, how to retain the correct number of clusters and interpret cluster solutions.		
13 Discriminant Analysis and M Dimensional Scaling		SPSS/As per requirement	Students will learn the different types of input to create perceptual maps and pat worth utilities and the interpretation the solution of discriminant analysis and MDS for business applications.

Title of the Subject /	:	Management of Corporate Social Responsibility in			
course		organizations			
Course Code	:				
Credits	:	4	Duration in	:	40
			Hrs.		

	According to Companies Act, 2013, at least 2% of a company's average net profit of
	immediately preceding three financial years has to be spent on CSR activity. However,
	this expense is subject to compliances of the guidelines prescribed under company law.
	CSR professionals with sound knowledge only can help companies benefit from the
1	expenditure and provide a detailed analysis of spending and the impact it is creating on
	the targeted beneficiary as well as the bottom line of the company.

# This course work will enable professionals to manage and drive CSR in their respective organizations.

Prerequisites if any	
Connections with Subjects in the current or Future courses	Corporate Social Responsibility – Semester II

Sr. No.	Content	Activity	Learning outcomes
1	Definitions, Concepts and International Frameworks of CSR Definitions and meanings of Corporate Social Responsibility, Business at the bottom of the pyramid, International frameworks of CSR	Case Study/Role Play/Group Discussions	Basic Concepts of CSR and its relevance to the organization
2	History and evolution of CSR (International and Indian) History and evolution of CSR (International Generic) History and Evolution of CSR (Indian History - Detailed) – from philanthropy to public-private- people partnerships Evolution of Indian CSR framework (Pre Companies Act 2013)	Case Study/Role Play/Group Discussions	History and evolution of CSR in the international arena as well as Indian context
3	Issues in Indian Economy and Social Development	Case Study/Role Play/Group	Knowledge about key economic and social

Sr. No.	Content	Activity	Learning outcomes
	Government Expectations, Roles and Responsibilities Issues of poverty, unemployment, unskilled labour, sanitation, immigration to urban areas and economic and social divide. Key international CSR initiatives of governmental or intergovernmental bodies	Discussions	issues in India Introductory knowledge about CSR initiatives by govt. and NGOs
4	<b>CSR and Companies Act 2013</b> Detailed reading, analysis and interpretation of Section 135 and Schedule VII of the Companies Act 2013 as well as the provisions of the Companies (Corporate Social Responsibility Policy) Rules, 2014	Case Study/Role Play/Group Discussions	Detailed knowledge about provisions for CSR in the Companies Act 2013
